

TREE LARGE

TREE LARGE

***Acer rubrum* 'October Glory'**

RED MAPLE This fine specimen tree has glossy, dark green lobed leaves and red spring-flower clusters on bare branches. Given neutral to acidic soil, the fall leaves glow bright crimson. Plant in open areas as the shallow roots can crack or lift sidewalks.

↑70ft (20m) ↔30ft (10m)

☀️ ☀️ ☀️ pH 7.3–9 (N)

TREE LARGE

Cercidiphyllum japonicum

KATSURA TREE This large tree, ideal for a sheltered woodland setting, is grown for its paired heart-shaped leaves, bronze-tinted when young. In fall, the leaves develop beautiful orange, pink, and yellow tints, and a toffee fragrance.

↑70ft (20m) ↔50ft (15m)

☀️ ☀️ ☀️ Z4–8

TREE SMALL

Cornus florida

FLOWERING DOGWOOD This deciduous tree has slightly curled green leaves. It becomes covered with white or pink, flowerlike bracts in late spring. In fall, its leaves develop bold orange and red shades before dropping.

↑20ft (6m) ↔25ft (8m)

☀️ ☀️ ☀️ pH 7.5–9 (N)

TREE MEDIUM

Betula alleghaniensis

YELLOW BIRCH This medium-sized upright tree is ideal for a woodland grove with smooth light bronze bark, peeling in horizontal slivers. It has toothed-edged, oval, pointed leaves that turn butter-yellow in fall before dropping.

↑40ft (12m) or more ↔10ft (3m)

☀️ ☀️ ☀️ Z4–7 (N)

SHRUB LARGE

***Cornus alba* 'Sibirica'**

TATARIAN DOGWOOD This deciduous shrub displays bright red bare stems in winter and bears flattened heads of white early summer flowers followed by bluish white fruits. In fall, the leaves flush with rich shades of yellow, orange, and red before dropping.

↑↑10ft (3m)

☀️ ☀️ Z2–7

TREE SMALL

Cornus kousa* var. *chinensis

CHINESE DOGWOOD Although this large shrub or small tree is grown for its tiny late spring flowers surrounded by cream-colored petal-like bracts, its fall display is equally fine. The oval leaves, which hang in tiers, color rich red and orange.

↑22ft (7m) ↔15ft (5m)

☀️ ☀️ ☀️ Z5–8

TREE LARGE

Betula lenta

CHERRY BIRCH This large tree has glossy brownish gray bark with prominent horizontal markings, often developing black vertical fissures as the tree matures. The broad oval leaves develop beautiful golden-yellow tints in fall.

↑50ft (15m) ↔40ft (12m)

☀️ ☀️ ☀️ Z3–7 (N)

SHRUB LARGE

***Cotinus* 'Grace'**

SMOKE TREE The broadly oval leaves of this shrub gradually turn from purple to scarlet-red and flame-orange in fall. Whether purple- or green-leaved, all smoke bush varieties offer an eye-catching fall display.

↑20ft (6m) ↔15ft (5m)

☀️ ☀️ Z5–8
