

SHRUB LARGE

Clerodendrum trichotomum var. *fargesii*

GLORY BOWER This small tree or large upright shrub has broad heart-shaped leaves and fragrant white late summer to mid-fall flowers that lead to kingfisher-blue berries surmounted by maroon bracts.

±20ft (6m)

☀️ 🌞 Z7–9

TREE MEDIUM

Cornus capitata

EVERGREEN DOGWOOD This evergreen tree or large shrub favors a warm sheltered site. In early summer, the branches are smothered with flowers that have showy creamy petal-like bracts. These are followed by edible strawberry-like fruits, ripening in fall.

±40ft (12m)

☀️ 🌞 🌱 Z8–9

TREE SMALL

TREE SMALL

Cornus kousa

KOUSA DOGWOOD This early summer-flowering, slow-growing tree or large shrub has glossy oval leaves and showy petal-like cream-colored bracts that develop pink tints. Hanging clusters of knobby, pinkish red, spherical fruits follow in fall.

±22ft (7m) ±15ft (5m)

☀️ 🌞 🌱 Z5–8

SHRUB LARGE

Decaisnea fargesii

BLUE BEAN SHRUB An upright deciduous shrub with large divided leaves and hanging clusters of clematis like yellow-green early summer flowers that lead to fall-ripening, pendulous metallic-blue bean pods. Protect from severe frosts.

±20ft (6m)

☀️ 🌞 Z7–9

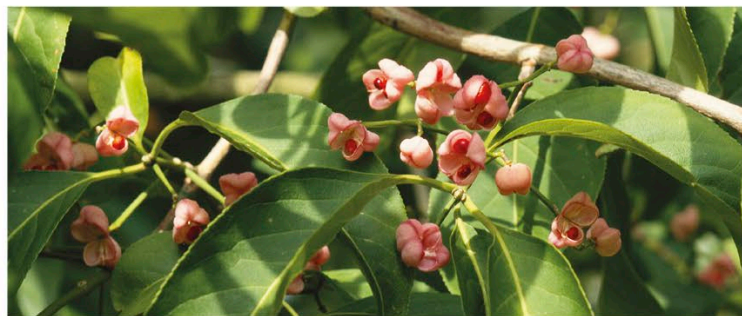

SHRUB SMALL

Cotoneaster horizontalis

ROCKSPRAY Best trained against a wall at the back of a narrow bed, this spreading, deciduous shrub produces stems in a "herringbone" pattern. These are dotted in fall and early winter with red berries, which later fall or are eaten by birds.

±3ft (1m) ±5ft (1.5m)

☀️ 🌞 🌱 ⚠️ Z4–7

SHRUB LARGE

Euonymus hamiltonianus

HAMILTON'S SPINDLE TREE A large, deciduous shrub, with lance-shaped leaves that have fiery fall colors. In fall, it produces unusual ornamental fruits, which are flesh-pink and split to reveal glossy orange-red seeds.

±25ft (8m)

☀️ 🌞 ⚠️ Z5–8

Crataegus coccinea

HAWTHORN This small, spreading deciduous tree has broad leaves with jagged, toothed edges. In spring, white flowers appear, which are followed in fall by gleaming scarlet fruits that are attractive to wildlife.

±20ft (6m)
