

SHRUB LARGE

Rosa moyesii

MOYES ROSE This large arching shrub produces orange-red single summer flowers, each with a central tuft of golden stamens. It is noted for its hanging clusters of glossy red flask-shaped fruits.

‡12ft (4m) ↔ 10ft (3m)

☀️ Z6–8

SHRUB MEDIUM

Skimmia japonica

JAPANESE SKIMMIA This evergreen shrub has glossy dark green leaves and dense heads of tiny, fragrant, pink- or red-budded, white spring flowers. Females develop red berries, which persist into winter, if a male plant is nearby. Best in West Coast gardens.

‡↔ 5ft (1.5m)

☀️ ⚠️ Z6–8

SHRUB SMALL

Skimmia japonica 'Fructo Albo'

JAPANESE SKIMMIA This dwarf evergreen shrub has neat dark green foliage and crops of white berries that develop from white spring flower clusters. To help fruiting, plant with a male. Best in West Coast gardens.

‡24in (60cm) ↔ 3ft (1m)

☀️ ⚠️ Z6–8

SHRUB LARGE

SHRUB LARGE

Viburnum prunifolium

BLACKHAW VIBURNUM A deciduous shrub, ideal for hedging, with glossy oval leaves that turn red and purple-bronze in fall. From late spring to early summer, it forms lacy white flowers, attractive to butterflies. Birds love the blue-black fruits that follow.

‡15ft (5m) ↔ 12ft (4m)

☀️ Z3–9 (N)

SHRUB MEDIUM

Symphoricarpos x doorenbosii

SNOWBERRY Use this vigorous deciduous shrub as an informal hedge. The small, round dark green leaves and tiny greenish white summer flowers create a useful backdrop, and showy round white fruit clusters provide winter interest.

‡6ft (2m) ↔ indefinite

☀️ ☀️ ⚠️ Z4–7
