

SHRUB LARGE

Hamamelis x intermedia

WITCH HAZEL This vase-shaped shrub is grown for its lightly scented spidery flowers, which appear on bare stems from early- to midwinter. The broadly oval leaves appear later in spring. 'Jelena' (above) has large coppery orange flowers.

↕ 12ft (4m)

☀ ☀ ☀ pH 5–8

PERENNIAL SMALL

x Heucherella 'Tapestry'

FOAMY BELLS In sheltered areas, this evergreen perennial retains its deeply lobed green foliage with purple centers and veins. Ideal for edging beds or in containers, it forms sprays of small pink flowers in early summer.

↕ 12in (30cm)

☀ ☀ ☀ Z4–9

SHRUB MEDIUM

Leucothoe fontanesiana

DROOPING LEUCOTHOE Decorate a winter garden with this mid- to back-of-bed evergreen shrub with arching red-tinged stems, green leaves, and cream bell-shaped spring flowers. 'Scarletta' (above) has bronze-tinted winter leaves.

SHRUB LARGE

Hydrangea paniculata

PANICLE HYDRANGEA The faded conical clusters of white or pink flower heads form dried bronze sculptural features on skeletal stems and provide winter interest after the dark green leaves have fallen. Considered invasive in some areas of the Northeast.

↕ 10ft (3m)

☀ ☀ ☀ Z3–8

SHRUB SMALL

Mahonia aquifolium

OREGON GRAPEHOLLY An evergreen shrub with leathery, spine-edged dark green leaves that turn purplish in winter and provide interest before dense yellow flower clusters appear in spring. Round black berries follow. It will thrive in a shady bed.

↑ 3ft (1m) ↔ 5ft (1.5m)

☀ ☀ ☀ Z5–8 (N)

PERENNIAL MEDIUM

Helleborus foetidus

STINKING HELLEBORE This evergreen perennial brightens up late winter beds with its cup-shaped, nodding pale green flowers with red margins held on red stems. The dark green leaves are comprised of narrow toothed leaflets.

↕ 24in (60cm)

☀ ☀ ☀ Z6–9

TREE LARGE

Ilex aquifolium

ENGLISH HOLLY An iconic winter evergreen shrub, or tree, with wavy-edged, spiny dark green leaves and, on pollinated female plants, scarlet berries. Variegated cultivars provide additional cold-season color. Plant at the back of a bed. Considered invasive.

↑ up to 70ft (20m) ↔ 20ft (6m)

☀ ☀ ☀ ☀ Z7–9

SHRUB MEDIUM

Mahonia japonica

JAPANESE MAHONIA The leathery, spine-edged dark green leaves of this evergreen shrub add color to winter borders when they become tinted with purple. Dense clusters of fragrant yellow flowers open through winter followed by black berries.

↑ 6ft (2m) ↔ 10ft (3m)

☀ ☀ ☀ Z6–9

PERENNIAL SMALL

Helleborus niger

CHRISTMAS ROSE This clump-forming semievergreen perennial has leathery leaflets and, from winter to early spring, cup-shaped, nodding white or pink-flushed flowers with a touch of green at the base of the tuft of stamens.

↕ 12in (30cm)

☀ ☀ ☀ ☀ Z3–8

SHRUB LARGE

Jasminum nudiflorum

WINTER JASMINE This arching deciduous shrub has oval, dark green leaves followed by starry bright yellow flowers on bare green shoots from winter to early spring. Use as a backdrop to a bed by training the stems against a wall or fence.

↕ 10ft (3m)

☀ ☀ ☀ Z6–10

PERENNIAL MEDIUM

Ophiopogon jaburan

WHITE TURFLILLY Use this evergreen perennial in a sheltered winter bed to create an edge of grasslike dark green leaves. Violet-blue fruits follow white bell-shaped flowers summer flowers. 'Vittatus' (above) is cream- and green-striped.

↑ 24in (60cm) ↔ 12in (30cm)
