

SHRUB SMALL

Hypericum calycinum

AARON'S BEARD This vigorous evergreen shrub makes good ground cover. Its dark green foliage provides year-round color. Large, open bright yellow flowers with fluffy stamens in the center appear from midsummer to mid-fall.

↑24in (60cm) ↔ indefinite

☀️ ☀️ ☀️ Z5-9

SHRUB MEDIUM

Leucothoe fontanesiana

DROOPING LEUCOTHOE This evergreen shrub has arching red-tinted stems, lance-shaped green leaves, red-tinted or mottled in some varieties, and cream spring flowers. 'Rainbow' (above) has mottled cream- and pink-variegated leaves.

↑up to 5ft (1.5m) ↔ 6ft (2m)

☀️ ☀️ ☀️ pH ⓘ Z5-8 (N)

PERENNIAL MEDIUM

Luzula nivea

SNOWY WOODRUSH This evergreen perennial forms loose clumps of dark green grasslike leaves, ideal for edging a bed. From early- to midsummer, tight clusters of tiny white flowers appear on slim stems. Try it in a shady spot in a wildlife garden.

↑↔24in (60cm)

☀️ ☀️ ☀️ Z4-9

TREE LARGE

Magnolia grandiflora

SOUTHERN MAGNOLIA This evergreen tree produces a rounded head of large, glossy dark green leaves and large, white fragrant midsummer to early fall flowers. It makes an eye-catching focal point in a sheltered garden or beside a south-facing wall.

↑60ft (18m) ↔ 50ft (15m)

☀️ ☀️ ☀️ Z7-9 (N)

SHRUB SMALL

Mitchella repens

PARTRIDGEBERRY This evergreen subshrub, with trailing stems of small, oval white-striped green leaves, is ideal for draping over the side of a raised bed. In early summer, tiny, white fragrant flowers appear, followed by red berries.

↑2in (5cm) ↔ indefinite

☀️ ☀️ pH Z4-9 (N)

SHRUB MEDIUM

Mahonia x media

MAHONIA An evergreen architectural shrub with long dark green leaves divided into paired spiny leaflets. Throughout winter, long clusters of scented yellow flowers appear. 'Buckland' has longer flower spikes and red-tinted winter leaves.

↑6ft (1.8m) ↔ 12ft (4m)

☀️ ☀️ ☀️ Z7-9

SHRUB SMALL

Microbiota decussata

RUSSIAN ARBORVITAE Use this low-growing evergreen coniferous shrub, with its sprays of tiny, scalelike bright green leaves, bronze-purple in winter, as a foil for shrubs with colorful foliage and flowers. The flowers and cones are inconspicuous.

↑3ft (1m) ↔ indefinite

☀️ ☀️ ☀️ Z3-7

PERENNIAL SMALL

***Ophiopogon planiscapus*
'Nigrescens'**

MONDO GRASS Perfect for bed edging or pots, this grasslike member of the lily family has shiny black foliage that contrasts well with bright gravel. Black fall berries follow the clusters of purple-pink summer blooms.

↑9in (23cm) ↔ 12in (30cm)

☀️ ☀️ ☀️ Z6-10

SHRUB LARGE

Osmanthus heterophyllus

FALSE HOLLY The glossy, bright green hollylike leaves of this evergreen shrub make a decorative feature or screen in sheltered gardens. It produces tiny, white fragrant flowers in fall. 'Aureomarginatus' (above) has gold-edged leaves.
