

TREE MEDIUM

Eucryphia glutinosa

NIRRHÉ This upright deciduous or semievergreen tree or shrub has green foliage divided into glossy toothed-edged leaflets. In summer, white, bowl-shaped single or double blooms with a central tuft of stamens appear.

↑ 30ft (10m) ↔ 20ft (6m)

☀️ ☕ ☀️ ☀️ ☀️ Z8–11

PERENNIAL LARGE

***Euphorbia characias*
subsp. *wulfenii***

MEDITERRANEAN SPURGE This evergreen perennial has multiple upright stems with whorls of slender gray to blue-green leaves. Long-lasting yellow-green flower heads appear in second spring. Sap is an irritant.

↑↔ 4ft (1.2m)

☀️ ☕ ☕ ☕ Z7–10

PERENNIAL SMALL

Euphorbia myrsinites

MYRTLE SPURGE This ground-hugging evergreen perennial has woody stems clothed in scalelike, fleshy gray leaves. Stems are tipped with vivid yellow-green flower heads in spring. Remove the spent blooms. The sap can cause skin irritation.

↑ 3in (8cm) ↔ 8in (20cm)

☀️ ☕ ☕ ☕ Z5–9

SHRUB MEDIUM

Exochorda x macrantha

PEARLBUSH This deciduous shrub makes a mound of dense stems covered with small dark green leaves that develop bold fall tints. From late spring to early summer, small, saucer-shaped white blooms smother the arching branches.

↑ 6ft (2m) ↔ 10ft (3m)

☀️ ☕ ☕ ☕ Z5–8

PERENNIAL SMALL

Festuca glauca

BLUE FESCUE This evergreen grass is commonly grown for its arching tufts of fine steel-blue threadlike leaves. Short flower spikes appear in summer, but are best removed to maintain the plant's uniform shape and color.

↑↔ 20in (50cm)

☀️ ☕ ☕ ☕ Z4–8

BULB MEDIUM

***Galanthus* 'Sam Arnott'**

SNOWDROP This perennial bulb produces gray-green grasslike leaves. In late winter, small, fragrant, nodding white flowers with green "V" marks on the inner segments appear. It looks effective when planted in natural drifts.

↑ 6in (15cm) ↔ 3in (8cm)

☀️ ☕ ☕ ☕ Z4–8

PERENNIAL MEDIUM

***Geranium clarkei*
'Kashmir White'**

CRANESBILL This spreading perennial has elegantly divided leaves and saucer-shaped white late summer blooms with pink nectar guides on the petals. Use it to underplant roses or at the front of a bed.

↑↔ 24in (60cm)

☀️ ☕ ☕ ☕ Z5–8

PERENNIAL MEDIUM

Helictotrichon sempervirens

BLUE OAT GRASS This evergreen perennial grass produces long silvery blue leaves that form an airy mound. Light blue flowers with long-lasting straw-colored seedheads appear from early- to midsummer on arching stems.

↑ 3ft (1m) ↔ 24in (60cm)

☀️ ☕ ☕ ☕ Z4–8

PERENNIAL SMALL

Helleborus foetidus

STINKING HELLEBORE An evergreen perennial with handsome dark green leaves divided into toothed leaflets. From late winter to early spring, clusters of cup-shaped pale green flowers with red-edged petals appear.

↑↔ 24in (60cm)

☀️ ☕ ☕ ☕ Z6–9

PERENNIAL SMALL

Helleborus niger

CHRISTMAS ROSE Perfect for winter gardens, this semievergreen perennial forms clumps of lobed dark green leaves. Saucer-shaped white blooms that age to pink appear from winter to early spring. 'Potter's Wheel' (above) has pure white blooms.

↑↔ 12in (30cm)

☀️ ☕ ☕ ☕ Z3–8

SHRUB MEDIUM

Hydrangea arborescens

SMOOTH HYDRANGEA This rounded shrub bears oval midgreen leaves and, in midsummer, dome-shaped flattened clusters of long-lasting blooms that open from lime-green buds and age to creamy white, and produce papery winter skeletons.

↑↔ 5ft (1.5m)

☀️ ☕ ☕ ☕ Z4–9 (N)
