

TREE MEDIUM

Magnolia stellata

STAR MAGNOLIA The silk-budded, fragrant, white star-shaped flowers make this deciduous tree a favorite for early spring beds. Slim green leaves appear after the blooms. Plant it in a sheltered site to protect the blooms from frost.

↑↔30ft (10m)

☀️ ☀️ ☀️ Z4–8

PERENNIAL LARGE

Meconopsis betonicifolia

BLUE POPPY A short-lived rosette-forming perennial with rusty haired heart-shaped leaves. Leafy stems bear poppylike yellow-centered blue blooms in late spring. Needs cool, moist conditions. Can be difficult to grow; best in Pacific Northwest gardens.

↑4ft (1.2m) ↔18in (45cm)

☀️ ☀️ ☀️ Z7–8

BULB MEDIUM

Narcissus 'Ice Follies'

DAFFODIL This mid-spring-flowering perennial bulb makes a great companion plant with blue hyacinth. Its creamy white flowers have frilled primrose cups that fade to white. Plant the bulbs in drifts in fall.

↑16in (40cm)

☀️ ☀️ ☀️ Z3–8

PERENNIAL SMALL

Nepeta x faassenii

CATMINT This bushy edging perennial has aromatic, small grayish green leaves. From summer to fall, masses of soft purple-blue flower spikes appear. Cut back after the first main flush to keep the plant tidy and compact.

↑↔18in (45cm)

☀️ ☀️ ☀️ Z4–8

SHRUB LARGE

Osmanthus x burkwoodii

OSMANTHUS This large, rounded, slow-growing evergreen shrub has small, oval dark green leaves and, in spring, clusters of tiny, highly fragrant, funnel-shaped white flowers. Black berries may follow. Grow in beds or as hedge plant.

↑↔10ft (3m)

☀️ ☀️ ☀️ Z7–9

SHRUB SMALL

Perovskia atriplicifolia

RUSSIAN SAGE A woody-based perennial with erect white stems clothed in deeply divided, gray-green aromatic leaves. Airy heads of lavender-blue flowers appear from late summer to fall. The bare white winter stems are a feature.

↑4ft (1.2m) ↔3ft (1m)

☀️ ☀️ ☀️ Z5–9

SHRUB MEDIUM

Philadelphus 'Belle Etoile'

MOCK ORANGE This deciduous shrub has slightly arching stems that bear deeply veined oval leaves. In early summer, highly fragrant, white single blooms with a maroon staining at the center open. Grow at the back of a bed.

↑6ft (2m) ↔4ft (1.2m)

☀️ ☀️ ☀️ Z5–8

SHRUB SMALL

Phlomis fruticosa

JERUSALEM SAGE A spreading evergreen shrub with round whorls of yellow trumpet-shaped summer flowers on upright stems and gray-green leaves, which release a musky herbal scent when brushed. The seedheads provide interest over winter.

↑3ft (1m) ↔5ft (1.5m)

☀️ ☀️ ☀️ Z8–10

PERENNIAL LARGE

Phlox paniculata 'Mount Fuji'

GARDEN PHLOX This clump-forming perennial produces tall stems of lance-shaped leaves that are topped with large domed heads of fragrant white blooms from midsummer to early fall, provided the soil is moist.

↑4ft (1.2m) ↔24in (60cm)

☀️ ☀️ ☀️ Z4–8 (N)

SHRUB MEDIUM

Phygelius x rectus

CAPE FUCHSIA This upright semievergreen shrub has green lance-shaped leaves and clusters of long, tubular flowers in summer. It may die back in winter when young. Varieties include 'Moonraker' (above) with custard-yellow blooms.

↑3ft (1m) ↔4ft (1.2m)

☀️ ☀️ ☀️ Z8–9

TREE LARGE

Picea pungens 'Koster'

COLORADO SPRUCE This cone-shaped evergreen conifer bears stiff, bright silvery blue needlelike foliage. Upright cones form toward the ends of the branches. Grow it in a specimen or screen in neutral to acidic soil. Copes with all but wet soils.

↑50ft (15m) ↔15ft (5m)

☀️ ☀️ ☀️ pH Z2–7 (N)
