

SHRUB SMALL

Potentilla fruticosa 'Abbotswood'

CINQUEFOIL This tough, reliable deciduous shrub has a bushy rounded or domed habit and round white blooms for many weeks from summer to fall. The foliage is divided into small leaflets.

↑3ft (1m) ↔5ft (1.5m)

☀️ Z3-7 (N)

BULB MEDIUM

Puschkinia scilloides var. *libanotica*

STRIPED SQUILL A perennial bulb with strap-shaped leaves and clusters of bell-shaped white spring blooms with a blue stripe on each petal. Grow in drifts in lawns or with spring bulbs.

↑6in (15cm)

☀️ Z4-8

TREE SMALL

Pyrus salicifolia 'Pendula'

WILLOWLEAF PEAR A small tree with branches trailing to the ground and cream spring flowers that appear before the narrow silver-gray leaves are fully open. Its size and spread may be controlled by trimming into a bell-domed standard.

↑25ft (8m) ↔20ft (6m)

☀️ Z4-7

PERENNIAL LARGE

Romneya coulteri

TREE POPPY A late summer-flowering, back-of-bed shrubby perennial with elegant, deeply cut gray-green leaves and fragrant, white bowl-shaped flowers with a central dome of golden stamens. Common only to the West Coast, where it is native.

↑↔6ft (2m)

☀️ Z8-10 (N)

CLIMBER LARGE

Rosa 'Félicité Perpétue'

RAMBLING HYBRID SEMPERVIRENS ROSE

This vigorous rambling rose has glossy semievergreen leaves. Grow it up a large tree or over a wall, where the spectacular summer flush of blush pink to white, fragrant fully double blooms can be appreciated.

↑15ft (5m)

☀️ Z6-9

PERENNIAL MEDIUM

Santolina chamaecyparissus

LAVERNER COTTON A dwarf evergreen perennial, grown as an annual, with dense foliage made up of cut, narrow, aromatic silver-gray leaves. Remove the flowers before they open to maintain the silvery effect. Can be grown as low hedge.

↑30in (75cm) ↔3ft (1m)

☀️ Z6-9

SHRUB SMALL

Ruta graveolens

COMMON RUE A rounded evergreen shrub with aromatic, blue-green ferny foliage divided into oval leaflets. Ideal for herb gardens. Remove the yellow flowers to promote a stronger leaf effect. Toxic, if ingested; sap may blister skin in sunlight.

↑3ft (1m) ↔30in (75cm)

☀️ ⚠️ Z4-8

SHRUB SMALL

Salvia officinalis 'Purpurascens'

PURPLE SAGE This woody-based evergreen subshrub, grown as an annual, has aromatic oval leaves, purple when young and dusty purple-green when mature, and lilac summer blooms. Use at the front of mixed beds.

↑up to 32in (80cm) ↔3ft (1m)

☀️ Z5-9

PERENNIAL MEDIUM

Salvia patens

GENTIAN SAGE This herbaceous perennial has oval to triangular, hairy leaves that clothe the upright stems. From midsummer to fall, the stems are topped with open heads of two-lipped vivid blue flowers. 'Cambridge Blue' has paler blooms.

↑24in (60cm) ↔18in (45cm)

☀️ Z8-10 (N)

PERENNIAL SMALL

Senecio cineraria

DUSTY MILLER A woody-based evergreen perennial, often grown as an annual in bedding schemes. In mild gardens and sheltered sites, the finely divided, felted silver leaves last well into fall. Cut back to prevent flowering.

↑↔12in (30cm)

☀️ Z8-11

SHRUB MEDIUM

Spiraea x vanhouttei

BRIDAL WREATH A deciduous shrub with a mound-forming habit. It has small leaves and arching stems of white flower heads from mid- to late spring. Grow as an informal flowering hedge, a back-of-bed plant, or as a specimen.

↑6ft (2m) ↔5ft (1.5m)

☀️ Z3-8
