

Plants for hot and dark colors

Hot-hued flowers create drama in the garden, especially when teamed with smoldering dark purple or blue-black foliage plants.

Brightly colored blooms also produce striking combinations with golden-leaved plants, such as Bowles' golden sedge and sunburst honeylocust, and look effective when cooled with a selection of neutral greens. Purple foliage complements almost any color, but take care when matching up golds with pastel shades of pink or peach to avoid unsightly clashes. Beds aglow with sizzling reds, oranges, and yellows catch the eye and add highlights to more subtle color schemes, while compact plants, such as bedding dahlias and varieties of scarlet sage, make arresting focal points in container displays.

TREE SMALL

Acer shirasawanum 'Aureum'

FULL MOON MAPLE This deciduous shrub or small tree with lobed bright yellow foliage complements a hot-hued border or gravel garden. It also features small crimson spring flowers and its palmate leaves turn scarlet in fall.

↑↔20ft (6m)

☀️ ☀️ ☀️ Z5-7

PERENNIAL MEDIUM

Achillea millefolium 'Paprika'

YARROW This semievergreen perennial's flat heads of tiny rosy red flowers with yellow centers, which fade to buff as they mature, combine well with scarlet blooms and contrasting golden-yellow plants. Its feathery leaves are silvery green.

↑18in (45cm) ↔16in (40cm)

☀️ ☀️ ☀️ Z3-8 (N)

PERENNIAL LARGE

Actaea simplex Brunette'

BUGBANE Use the divided dark purple foliage of this perennial as a foil for bright yellows and reds, or to complement moodier shades. From early- to mid-fall it bears off-white tinged purple bottlebrush blooms.

↑4ft (1.2m) ↔24in (60cm)

☀️ ☀️ ☀️ Z4-8

SHRUB MEDIUM

Abutilon megapotamicum

TRAILING ABUTILON In a sheltered, sunny site, this evergreen shrub will brighten schemes with its bell-shaped yellow and red summer flowers, which contrast with its heart-shaped dark green leaves. Train the stems up a wall; protect against frost.

↑↔6ft (2m)

☀️ ☀️ ☀️ Z8-10

SHRUB MEDIUM

Acer palmatum var. *dissectum*

JAPANESE MAPLE This deciduous shrub's dark purple foliage complements bright, hot shades. It has a domed habit and lobed leaves with finely divided tapering "fingers." Plant under shelter. Considered invasive in some Mid-Atlantic and Northeastern areas.

↑5ft (1.5m) ↔3ft (1m)

☀️ ☀️ ☀️ Z5-8

PERENNIAL MEDIUM

Achillea 'Moonshine'

YARROW This short-lived perennial is perfect for the front of a sunny hot color-themed bed. Flat-topped yellow flower heads, held on slim stems above the silvery ferny foliage, appear over a long period in summer. It is resistant to flopping.

↑24in (60cm) ↔20in (50cm)

☀️ ☀️ ☀️ Z3-8

CLIMBER LARGE

Actinidia kolomikta

VARIEGATED KIWI VINE A vigorous deciduous climber grown for its large heart-shaped leaves, many of which are marked with bold silver or pink patches. Planted on a wall or fence, it makes a good backdrop to brightly colored plants. Best in shelter.

↑12ft (4m)

☀️ ☀️ ☀️ Z5-8

TREE SMALL

Aesculus pavia

RED BUCKEYE This small tree lights up in spring when upright panicles of orange-red tubular flowers appear. The large, divided dark green leaves create an architectural feature. The fall seeds are poisonous.

↑15ft (5m) ↔10ft (3m)

☀️ ☀️ ☀️ ☀️ Z4-8 (N)
