

BULB LARGE

Lilium Golden Splendor Group

TRUMPET LILY Use this tall upright bulb with scented trumpet-shaped, golden summer flowers to create a dramatic highlight at the back of a bed. Plant the bulbs in spring; stake the stems.

†6ft (2m)

☀️ Z5–8

PERENNIAL MEDIUM

Monarda 'Cambridge Scarlet'
BEEBALM Plant this clump-forming upright perennial mid-bed in moist soil to enjoy the aromatic dark green leaves and spidery red blooms in summer. Try it with hot pink and orange flowers for a sizzling display. Stems may need staking.

†3ft (1m) ↔ 18in (45cm)

☀️ Z3–9 (N)

SHRUB MEDIUM

Lonicera nitida 'Baggesen's Gold'

BOXLEAF HONEYSUCKLE Use this evergreen shrub as a backdrop to a fiery bed of red, yellow, and orange blooms. Its arching stems of yellow-green leaves make for a dense screen.

†6ft (2m) ↔ 10ft (3m)

☀️ Z7–9

BULB MEDIUM

Narcissus 'Pipit'

JONQUILLA DAFFODIL Plant this dwarf perennial bulb in masses in beds or large containers to create a sea of fragrant lemon-yellow flowers with creamy white cups from mid- to late spring. Plant bulbs in fall with tulips that flower at the same time.

†10in (25cm)

☀️ Z4–8

PERENNIAL MEDIUM

Lychnis coronaria

ROSE CAMPION This perennial or biennial with its profusion of small, round, bright pink summer flowers is ideal for the front of a bed. The silver-gray slightly downy foliage adds to its charm. Allow it to self-seed to create a naturalistic effect.

†24in (60cm) ↔ 18in (45cm)

☀️ Z4–8

SHRUB MEDIUM

Paeonia delavayi

TREE PEONY This upright deciduous shrub has tall stems with large, deeply lobed dark green leaves, blue-green beneath, and nodding cup-shaped, dark red late spring flowers. Plant it at the back of a hot color-themed bed or along a boundary.

†6ft (2m)

☀️ Z4–8

BULB MEDIUM

Lilium lancifolium

TIGER LILY This upright perennial bulb has long, narrow lance-shaped leaves and, from summer to early fall, nodding turks-cap pink- to red-orange flowers. 'Splendens' (above) has larger black-spotted, bright red-orange blooms.

†24in (60cm) or more

☀️ Z3–8

PERENNIAL SMALL

Meconopsis cambrica

WELSH POPPY This perennial is perfect for naturalistic gardens. Use its lemon-yellow or orange poppylike blooms to brighten beds and gravel beds from late spring to summer. The divided leaves are light green. It will self-seed readily in free-draining soil.

†18in (45cm) ↔ 12in (30cm)

☀️ Z5–9

PERENNIAL MEDIUM

Paeonia mlokosewitschii

CAUCASIAN PEONY The showy bowl-shaped lemon-yellow flowers of this clump-forming perennial look dramatic from late spring to early summer in a sunny or partly shaded bed. Pinkish leaf buds unfurl to reveal bluish green oval foliage.

†30in (75cm)

☀️ Z5–8
