

BULB LARGE

Lilium 'Red Hot'

ORIENTAL LILY The exotic perfume of lilies is unmistakable. This large bulb produces arching stems that bear slender leaves that are topped with white-edged red blooms in summer. The blooms are particularly fragrant.

CLIMBER LARGE

Lonicera periclymenum

WOODBINE A deciduous twining climber with clusters of flared tubular blooms that are a combination of creamy white yellow and pink during summer, depending on the variety. The perfume becomes stronger at twilight. Considered invasive in some areas.

‡22ft (7m)

SHRUB MEDIUM

Mahonia japonica

JAPANESE MAHONIA This evergreen architectural shrub with prickly-edged leathery leaflets becomes purple tinged in winter. From late fall to early spring, drooping pale yellow flower tassels fill the air with lily-of-the-valley scent.

‡6ft (2m) ↔ 10ft (3m)

☀️ ☀️ ☀️ Z6–9

TREE MEDIUM

Magnolia virginiana

SWEETBAY MAGNOLIA This moisture-loving deciduous or semievergreen shrub or tree has large glossy leaves, bluish white beneath, and lemon-vanilla scented, cream cup-shaped flowers in early summer and sporadically until fall.

‡30ft (10m) ↔ 20ft (6m)

SHRUB MEDIUM

Mahonia x media

MAHONIA These hybrids add architectural interest in the winter garden with their large, divided glossy leaves and stems topped with clusters of fragrant yellow flower spikes. The blooms of 'Buckland' (above) are striking.

‡6ft (1.8m) ↔ 12ft (4m)

☀️ ☀️ ☀️ Z7–9

BULB LARGE

Lilium regale

REGAL LILY A cottage garden classic, this richly perfumed bulb in summer produces several large white trumpets at the top of upright stems. The throats are yellow and petal pinkish purple at the reverse. Loosely tie stalks to support blooms.

‡6ft (2m)

☀️ ☀️ ☀️ Z4–8

PERENNIAL SMALL

Matthiola incana

STOCK A short-lived perennial or annual with large pastel-shaded flower heads above the gray-green-leaved stocks that fill the cottage garden bed with their sweet clove fragrance and last from late spring into summer.

CLIMBER LARGE

Lonicera x heckrottii

GOLDFLAME HONEYSUCKLE This large deciduous or semievergreen twining climber has oval dark green leaves. Its summer flowers are a richly-perfumed pink with orange throats, the scent especially strong in the evenings and early mornings.

‡15ft (5m)

☀️ ☀️ ☀️ ⚠️ Z6–9

BULB MEDIUM

Narcissus 'February Gold'

DAFFODIL This variety is one of the first daffodils to bloom in spring, bearing rich yellow single flowers with a sweet peppery scent. Plant them in groups during fall in lawns and beds, and leave them to naturalize. Ideal for spring containers.

‡12in (30cm)
