

TREE SMALL

Carpinus japonica

JAPANESE HORNBEAM This deciduous tree produces serrated, textured prominently veined foliage, which contrasts well with plants bearing smooth leaves. Green catkins, which mature to brown, appear in spring.

↑↔25ft (8m)

☀️ ☀️ ☀️ Z4–9

PERENNIAL LARGE

Crocosmia masoniorum

MONTBRETIA Grown for its arching stems of orange-red flowers in late summer, this clump-forming perennial has sword-shaped dark green leaves, which are pleated lengthways, and offer dramatic shape and texture. Good for use on roof top gardens.

↑4½ft (1.4m) ↔18in (45cm)

☀️ ☀️ ☀️ Z6–9

PERENNIAL LARGE

Cynara cardunculus

CARDOON This upright perennial can be treated as an annual. Its spiny silver-gray ornamental foliage is ideal for use as a focal point in a sunny bed. Large, thistlelike purple flowers appear from summer to fall. Considered invasive in West Coast areas.

↑6ft (2m) ↔3ft (1m)

☀️ ☀️ ☀️ Z7–9

PERENNIAL LARGE

Ensete ventricosum

ABYSSINIAN BANANA This evergreen perennial has large, paddle-shaped green leaves, red beneath, with cream midribs, and marked horizontal veins that create a ridged effect. Grow it in a large pot in cold regions, and bring under cover in winter.

↑↔10ft (3m) in a pot

☀️ ☀️ ☀️ Z10–11

TREE LARGE

Fagus sylvatica

EUROPEAN BEECH This large deciduous tree, often clipped to create hedging, has prominently veined, textured, wavy-edged green leaves, which turn coppery brown in fall. It retains its fall foliage through winter when used as hedging.

↑80ft (25m) ↔50ft (15m)

☀️ ☀️ ☀️ Z4–7

PERENNIAL SMALL

Eryngium bourgatii

MEDITERRANEAN SEA HOLLY This upright perennial has rich textures. Its silver-veined leaves have spiny edges, creating a prickly show, while the conelike summer flowers sport spiny ruffs. The seedheads retain this spiky look. Combines well with grasses.

↑18in (45cm) ↔12in (30cm)

☀️ ☀️ ☀️ Z5–9

TREE LARGE

Eucalyptus gunnii

CIDER GUM The smooth blue-gray young foliage of this tall evergreen tree makes a good contrast with the rough-textured leaves, which become gray-green and more leathery as they mature. Its colorful peeling bark also offers textural interest.

↑80ft (25m) ↔50ft (15m)

☀️ ☀️ ☀️ Z8–10

PERENNIAL LARGE

Foeniculum vulgare

FENNEL A perennial herb with ferny leaves on slender upright stems and clusters of tiny yellow flower heads in summer. Use it in borders to contrast with plants that produce larger smooth-textured foliage. Considered invasive in some areas.

↑6ft (1.8m) ↔18in (45cm)

☀️ ☀️ ☀️ Z4–9

TREE LARGE

Ginkgo biloba

MAIDENHAIR TREE This deciduous conical tree has frilly-edged, pale green fan-shaped leaves that create a textural effect from spring to summer, and inject color in fall, when they turn yellow. Grow male cultivars to avoid messy and smelly fruits.

↑100ft (30m) ↔25ft (8m)
