

PERENNIAL SMALL

Heuchera micrantha var. *diversifolia* 'Palace Purple'

CORAL BELLS Combine this evergreen perennial with small-leaved plants, such as boxwood. It has rounded, lobed and veined, metallic bronze-purple leaves and small white summer flowers on wiry stems.

±18in (45cm)

☀️ Z3-8 (N)

PERENNIAL SMALL

Hosta 'Halcyon'

PLANTAIN LILY This compact perennial has slug-resistant, long, heart-shaped blue-gray leaves and a ribbed thick-textured appearance. It makes a good foil for dark green foliage plants, and provides both color and texture in shady borders.

±16in (40cm) ↔ 28in (70cm)

☀️ Z3-8

SHRUB MEDIUM

Hydrangea quercifolia

OAKLEAF HYDRANGEA This mound-forming shrub has rough-textured lobed leaves, which develop maroon tints, and take on striking red and purple hues in fall. Cone-shaped flower clusters appear from midsummer to fall.

±6ft (2m) ↔ 8ft (2.5m)

☀️ pH ⚠️ Z5-9 (N)

PERENNIAL MEDIUM

Matteuccia struthiopteris

OSTRICH FERN Most ferns offer interesting textures, but this shuttlecock-shaped deciduous species is among the best. It produces tall pale green fronds divided into toothed segments, and is ideal for damp soils in a woodland setting.

±3ft (1m) ↔ 18in (45cm)

☀️ Z2-8 (N)

TREE LARGE

Ilex aquifolium

ENGLISH HOLLY A slow-growing evergreen tree known for its dark green spiny leaves. Offering a prickly year-round textural effect, it makes a good foil for smooth-leaved plants. Females bear red winter berries. Considered invasive in some areas.

±up to 70ft (20m) ↔ 20ft (6m)

☀️ ⚠️ Z7-9

SHRUB MEDIUM

Mahonia x media

MAHONIA This evergreen shrub creates a spiky texture in shady gardens. It has dark green leaves divided into paired spiny leaflets. Clusters of scented yellow flower spikes appear in winter. Varieties include 'Buckland' with red-tinted winter leaves.

±6ft (1.8m) ↔ 12ft (4m)

☀️ ⚠️ Z7-9

SHRUB SMALL

Picea pungens 'Montgomery'

COLORADO SPRUCE The mound of gray-blue needlelike leaves produced by this compact, slow-growing evergreen conifer creates a bristly textured effect. Combine it with smooth green foliage plants in a sunny site. Requires neutral to acidic soil.

±24in (60cm)

☀️ pH Z2-7 (N)

TREE LARGE

Pinus radiata

MONTEREY PINE A vigorous evergreen conifer, suitable for large gardens with a broad crown of dense, dark green needlelike foliage, which will create a textured feature in a lawn. The tree also bears large conical to oval-shaped cones.

±130ft (40m) ↔ 40ft (12m)

☀️ Z8-10 (N)
