

TREE SMALL

Cordyline australis

CABBAGE PALM This palmlike evergreen tree forms a sculptural fountain of sword-shaped leaves in shades of green and purple. Ideal to use as an accent plant in a bed or patio display; overwinter indoors. Protect young specimens from frost.

↑ 10ft (3m) ↔ 3ft (1m)

☀️ Z10–11

PERENNIAL LARGE

Cynara cardunculus

CARDOON Grown for its spiny, silver-gray ornamental foliage, this upright perennial, is ideal as a sculptural focal point in a sunny bed. Thistlelike purple flowers appear from summer to fall. Can be grown as an annual. Considered invasive in West Coast areas.

↑ 6ft (2m) ↔ 3ft (1m)

☀️ Z7–9

SHRUB LARGE

Daphniphyllum macropodum

YUZURI-HA The large, slender oval leaves of this exotic-looking evergreen shrub are borne in clusters on branching stems, creating an architectural effect in sheltered gardens. Small purple-pink male or green female flowers appear in early summer.

↑↔ 20ft (6m)

☀️ Z7–9

SHRUB LARGE

Eriobotrya japonica

LOQUAT This architectural shrub produces large, glossy dark green leaves, felted beneath, at the end of branched stems, and makes a dramatic focal point. Grow it in a sunny, sheltered spot to promote the scented white fall and winter flowers.

↑↔ 25ft (8m)

☀️ Z8–11

PERENNIAL LARGE

Ensete ventricosum

ABYSSINIAN BANANA This evergreen perennial is ideal for foliage displays. It has large, tropical-style, paddle-shaped green leaves, red beneath. 'Maurelii' has red-tinted leaves. Grow in a large pot in cold regions; bring under cover in winter.

↑ 6ft (2m) ↔ 3ft (1m)

☀️ Z10–11

PERENNIAL LARGE

Darmara peltata

UMBRELLA PLANT This perennial is prized for its large, round, deeply veined green leaves, which can grow larger than dinner plates and turn red in fall. In spring, it bears clusters of white or pale pink flowers on hairy stems before the foliage appears.

↑ 4ft (1.2m) ↔ 24in (60cm)

☀️ Z5–7 (N)

PERENNIAL MEDIUM

Farfugium japonica

LEOPARD PLANT The large, kidney-shaped green leaves of this evergreen perennial lend sculptural interest to shaded gardens. 'Argentea' (above) has variegated foliage. Bright yellow daisy-like flowers appear in late fall. Apply a deep mulch in winter.

↑↔ 24in (60cm)

☀️ Z7–10

PERENNIAL MEDIUM

Dryopteris affinis

GOLDEN MALE FERN This evergreen fern's "shuttlecock" of tall, divided lance-shaped fronds, which are pale green when young and mature to dark green, create a sculptural effect in shady gardens. Cut off old growth in early spring.

↑↔ 3ft (1m)

☀️ Z5–8

SHRUB MEDIUM

x Fatshedera lizei

TREE IVY The dark green leaves of this upright evergreen shrub are deeply lobed and glossy. When trained as a climber up a pillar or against a wall, it creates tall columns of decorative foliage. Sprays of small white flowers appear in fall.

↑ 6ft (2m) ↔ 10ft (3m)

☀️ Z8–11
