

PERENNIAL LARGE

Canna TROPICANNA

CANNA Ideal for large containers, this perennial is grown for its large paddle-shaped leaves with vivid orange veins. In late summer, it produces tall stems topped with orange blooms. Water well, remove spent flowers, and protect during winter. $\uparrow 5\frac{1}{2}$ ft (1.6m) $\leftrightarrow$ 20in (50cm)

☀️ ☀️ ☀️ Z7–11

PERENNIAL MEDIUM

Carex buechananii

LEATHERLEAF SEDGE This evergreen perennial has narrow, grasslike, upward, then arching, copper-colored leaves, red toward the base. Suitable for baskets and windowboxes for summer and winter displays; the leaves trail over the sides. $\uparrow$ 24in (60cm) $\leftrightarrow$ 8in (20cm)

☀️ ☀️ ☀️ Z6–9

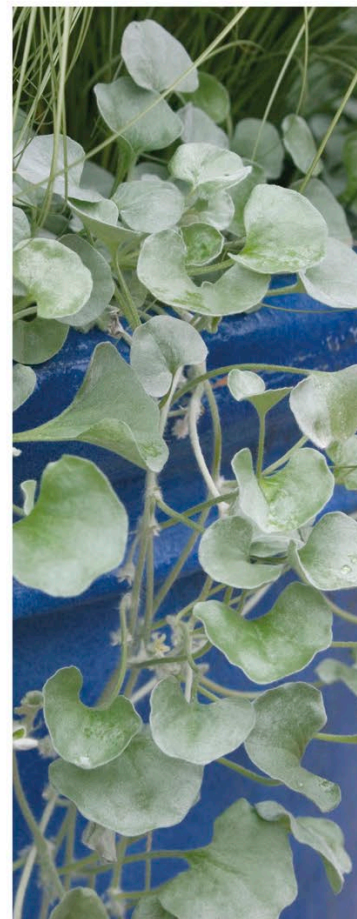

PERENNIAL SMALL

Carex comans

NEW ZEALAND HAIR SEDGE A grasslike evergreen perennial, grown for its arching, copper-brown hairlike leaves that form an airy tuft. Ideal for containers, it cascades over the sides; it is also suitable for winter interest. Remove dead growth in spring. $\uparrow$ 14in (35cm) $\leftrightarrow$ 30in (75cm)

☀️ ☀️ ☀️ Z7–9

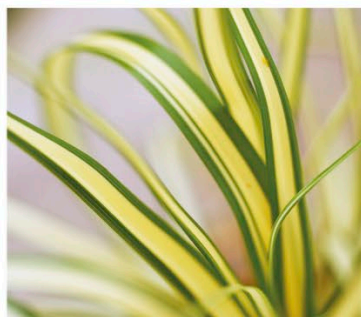

PERENNIAL SMALL

Dichondra argentea 'Silver Falls'

SILVER PONYFOOT This evergreen perennial has trailing silver-green leaves with rounded, shiny silvery green leaves. Plant in baskets and windowboxes. Quick-growing, it may compete with neighboring plants. $\uparrow$ 20in (50cm) $\leftrightarrow$ indefinite

☀️ ☀️ ☀️ Z10–12

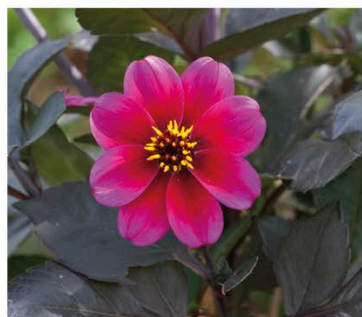

PERENNIAL SMALL

Carex oshimensis

JAPANESE SEDGE Useful for summer and winter container displays, this perennial has arching, glossy dark green leaves with cream stripes. 'Evergold' (above) is yellow-striped and brightens up shady areas. Water well; shelter from cold winds. $\uparrow$ $\leftrightarrow$ 8in (20cm)

☀️ ☀️ ☀️ Z5–9

BULB MEDIUM

Dahlia 'Roxy'

SINGLE DAHLIA Perfect for pots dwarf dahlias are grown for their flowers and foliage. This variety has dark purple-green leaves that provide a useful backdrop to other flowering plants in mixed containers. Lift the tubers and overwinter indoors. $\uparrow$ 18in (45cm) $\leftrightarrow$ 16in (40cm)

☀️ ☀️ ☀️ Z8–11

SHRUB LARGE

Dasyliirion acrotrichum

GREEN SOTOL This slow-growing evergreen shrub has slender, stiff spearlike leaves, radiating out from a central crown, forming a leafy globe. Mature plants develop a trunk topped with leaves. Plant in container of all-purpose potting soil; protect in winter. $\uparrow$ 20ft (6m) $\leftrightarrow$ 7ft (2.2m)

☀️ ☀️ ☀️ Z9–11 (N)

SHRUB LARGE

Fatsia japonica

JAPANESE FATZIA Suited to large pots, this evergreen shrub has large hand-shaped, glossy dark green leaves. Use young plants for winter bedding in windowboxes in a sheltered site. Grow as a houseplant in cold areas in soil-based potting mix. $\uparrow$ $\leftrightarrow$ 12ft (4m)

☀️ ☀️ ☀️ Z8–10

PERENNIAL MEDIUM

Geranium maculatum

SPOTTED GERANIUM This perennial bears pink flowers from spring to early summer, but is also grown for its cut green leaves, which form a low mound and provide contrast in a mixed planter. Ideal for cool, shady corners; remove the spent flowers. $\uparrow$ 30in (75cm) $\leftrightarrow$ 18in (45cm)

☀️ ☀️ ☀️ Z3–8 (N)

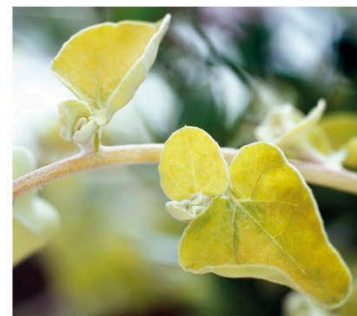

PERENNIAL SMALL

Hakonechloa macra 'Aureola'

JAPANESE FOREST GRASS A slow-growing deciduous grass, it is grown for its vivid green and yellow-striped foliage and elegant trailing habit. Red-brown flower spikes appear in early fall and last into winter. $\uparrow$ 16in (40cm) $\leftrightarrow$ 24in (60cm)

☀️ ☀️ ☀️ Z5–9

SHRUB SMALL

Helichrysum petiolare

LICORICE PLANT Grown as an annual, this shrub has downy gray-green leaves carried on trailing stems. Ideal for mixed containers and windowboxes, it can be overwintered under cover. 'Limelight' (above) has pale lime-green foliage. $\uparrow$ 6in (15cm) $\leftrightarrow$ 12in (30cm)

☀️ ☀️ ☀️ Z9–11
