

TREE MEDIUM

Laurus nobilis

BAY LAUREL This evergreen tree, with sweetly aromatic dark green leaves, can be shaped into a number of topiary forms including cones and columns or ball-headed standards for patio pots, given winter protection in cold areas.

↑40ft (12m) ↔30ft (10m)

☀️ Z8–10

TREE MEDIUM

Malus x moerlandsii 'Profusion'

FLOWERING CRABAPPLE Spectacular when in full bloom and smothered in deep pink spring blossom, this tree offers a long season of interest with purple-tinged new growth, purple fruits, and rich fall color.

↑↔30ft (10m)

☀️ Z4–8

SHRUB SMALL

Hebe rakaiensis

HEBE This naturally dome-shaped evergreen shrub, with small olive-green leaves, can easily be trimmed into simple topiary forms or a low hedge; clip as necessary in early summer to remove the white flowers.

↑3ft (1m) ↔4ft (1.2m)

☀️ Z8–10

TREE MEDIUM

Nyssa sinensis

CHINESE TUPELO This medium-sized spreading deciduous tree makes a striking lawn specimen at maturity as the narrow oval leaves put on a spectacular show of amber and scarlet in fall, especially when provided neutral to acidic soil.

↑↔30ft (10m)

☀️ Z7–9

TREE SMALL

Juniperus scopulorum

ROCKY MOUNTAIN JUNIPER For an exclamation mark within a bed or gravel area, choose one of the upright varieties of this evergreen conifer, such as 'Blue Arrow' or 'Skyrocket', both of which have fine blue-gray foliage and are "pencil" thin.

↑20ft (6m) ↔30in (75cm)

☀️ Z3–7 (N)

SHRUB MEDIUM

Lonicera nitida

BOXLEAF HONEYSUCKLE A quick-growing small-leaved evergreen, this is often used to shape topiary figures. It develops faster than traditional boxwood, but need more regular trimming. 'Baggesen's Gold' (above) has yellow leaves.

↑6ft (2m) ↔10ft (3m)

☀️ Z7–9

TREE SMALL

Parrotia persica

PERSIAN IRONWOOD As a specimen, this deciduous tree or large shrub with multiple stems has much to offer. In winter, the branches show patchwork patterns of peeling bark in grays, greens, and white. Its fall leaf color is striking.

↑25ft (8m) ↔30ft (10m)

☀️ Z4–8

PERENNIAL LARGE

Kniphofia caulescens

RED HOT POKER This perennial has a subtropical look and forms mounds of gray-green strap-shaped evergreen leaves topped with spikes of coral-red, opening to yellow, flowers on stout upright stems from late summer to fall.

↑4ft (1.2m) ↔24in (60cm)

☀️ Z6–11

TREE LARGE

Magnolia grandiflora

SOUTHERN MAGNOLIA The large, glossy green leaves of this evergreen tree, often grown in the shelter of a south-facing wall, give it a tropical look, a characteristic enhanced when the giant, scented white blooms open in midsummer.

↑60ft (18m) ↔50ft (15m)

☀️ Z7–9 (N)

PERENNIAL LARGE

Phormium tenax

NEW ZEALAND FLAX This clump-forming evergreen perennial, with arching or upright sword-shaped leaves, creates a dramatic contrast set against less defined plants. During hot summers, tall stems of dark red flowers appear.

↑10ft (3m) ↔6ft (2m)

☀️ Z9–11
