

PERENNIAL MEDIUM

Erysimum 'Bowles's Mauve'

PERENNIAL WALLFLOWER Ideal for a sunny bed, this drought-tolerant evergreen perennial produces slim gray-green leaves and spikes of mauve flowers from late winter to summer. Deadhead regularly to prolong the display.

†24in (60cm) ↔ 16in (40cm)

☀️ Z6–10

ANNUAL/BIENNIAL SMALL

Eschscholzia californica

CALIFORNIA POPPY Easy to grow from seed in spring, this clump-forming annual bears masses of orange, red, and yellow, bowl-shaped summer flowers. Grow in sun-baked beds, where it will offer the best show. May self-seed after first season. Can be weedy.

†12in (30cm) ↔ 6in (15cm)

☀️ (N)

PERENNIAL SMALL

Gypsophila repens

CREeping BABY'S BREATH This spreading semievergreen perennial can cope with dry, stony slopes in the Mediterranean. It forms mat of narrow bluish green leaves, above which rise sprays of round pale pink summer flowers. Trim back after flowering.

†8in (20cm) ↔ 12in (30cm) or more

☀️ Z4–8

PERENNIAL SMALL

Jovibarba hirta

JOVIBARBA This evergreen perennial, similar to a houseleek, produces rosettes of hairy-margined, triangular, spiny green leaves, often red-tinted, and yellow-brown bell-shaped flowers in summer. It tolerates very dry soils and thrives in full sun.

†6in (15cm) ↔ 4in (10cm)

☀️ Z4–8

ANNUAL/BIENNIAL SMALL

Lobularia maritima

SWEET ALYSSUM Easy to grow from seed, this mat-forming annual bears green lance-shaped leaves and masses of white or pink, sweetly scented rounded blooms in summer. Thrives in dry soils. 'Easter Bonnet' (above) is popular. Considered invasive in some areas.

†4in (10cm) ↔ 12in (30cm)

☀️

PERENNIAL MEDIUM

Malva moschata

MUSK MALLOW This bushy perennial, with woody stems, will grow happily in free-draining soils and full sun. It produces deeply lobed, dark green leaves and saucer-shaped, pale pink blooms from summer to fall. It may self-seed.

†3ft (1m) ↔ 24in (60cm)

☀️ Z3–8

SHRUB SMALL

Phlomis fruticosa

JERUSALEM SAGE This evergreen Mediterranean shrub is adapted to rocky soils, and will thrive in full sun. It has gray-green leaves and hooded yellow flowers on upright stems in summer. The seedheads provide interest over winter.

†3ft (1m) ↔ 5ft (1.5m)

☀️ Z8–10

PERENNIAL SMALL

Sedum erythrostictum 'Frosty Morn'

STONECROP Ideal for sandy soil, the fleshy white and gray-green variegated foliage of this perennial is joined by pale pink flower clusters from late summer to early fall. The brown seedheads persist through winter.

†12in (30cm) ↔ 18in (45cm)

☀️ Z4–9

PERENNIAL SMALL

Sempervivum giuseppii

HENS AND CHICKS Perfect for sun-baked cracks in walls or gravel beds, this diminutive evergreen perennial forms rosettes of spiky green leaves with purple pointed tips and, in summer, pink or red star-shaped flowers on upright stems.

†in flower 4in (10cm) ↔ 4in (10cm)

☀️ Z7–9

PERENNIAL MEDIUM

Solidago golden baby

GOLDENROD Tolerant of a wide range of sites and soils, this perennial thrives in sun-baked beds. It forms an upright clump of pointed, narrow green leaves. Small golden-yellow blooms appear from midsummer to early fall. Deadhead regularly.

†24in (60cm) ↔ 18in (45cm)

☀️ Z4–8

SHRUB MEDIUM

Yucca filamentosa

ADAM'S NEEDLE Drought-tolerant and sun-loving, this evergreen shrub offers a striking display of sword-shaped, dark green spine-tipped leaves. From mid- to late summer, white tulip-like flowers appear. 'Bright Edge' (above) is a variegated form.

†6ft (2m) ↔ 5ft (1.5m)

☀️ Z4–11 (N)
