

SHRUB SMALL

Calluna vulgaris

SCOTCH HEATHER Grown for its pink, red, or white flowers that appear from midsummer to fall, this low-growing evergreen shrub has a spreading habit and makes excellent all-year ground cover. There are many varieties to grow, and all need acidic soil.

↑24in (60cm) ↔30in (75cm)

☀️ ☕️ 🌿 pH 4–6

PERENNIAL SMALL

Ceratostigma plumbaginoides

PLUMBAGO A bushy mound-forming perennial with oval green leaves, which develop bold fall color. From late summer to fall, it becomes speckled with small vivid blue flowers. Plant it at the front of a bed where it can spread.

↑18in (45cm) ↔8in (20cm)

☀️ ☕️ 🌿 Z5–9

PERENNIAL SMALL

Cornus canadensis

BUNCHBERRY This low-growing carpet-forming perennial bears white single flowers in late spring. The blooms appear in the center of the rounded clusters of green leaves. It is slow-growing but ideal for shady and woodland gardens.

↑6in (15cm) ↔12in (30cm) or more

☀️ ☕️ 🌿 ⚠️ Z2–7 (N)

SHRUB SMALL

Daboecia cantabrica

IRISH HEATH This spreading evergreen shrub has small dark green leaves, and flowers from early summer to fall, bearing urn-shaped, white, purple, or mauve single or double flowers. 'Bicolor' (above) has mixed flower colors on same raceme.

↑18in (45cm) ↔24in (60cm)

☀️ ☕️ 🌿 pH 6–8

PERENNIAL LARGE

Dryopteris filix-mas

MALE FERN A deciduous or semievergreen fern with large midgreen fronds that arch outwards from a central crown, shading the surrounding soil and suppressing weeds. Ideal for shady and woodland gardens, plant it in groups or leave it to naturalize.

↑4ft (1.2m) ↔3ft (1m)

☀️ ☕️ 🌿 Z4–8 (N)

PERENNIAL SMALL

Epimedium grandiflorum

BISHOP'S HAT This clump-forming perennial forms a low canopy of heart-shaped, tough green leaves. In spring, pink, white, yellow, or purple nodding flowers appear. Cut back tired foliage. The popular 'Lilafée' (above) is sometimes sold as 'Lilac Fairy'.

↑10in (25cm) ↔12in (30cm)

☀️ ☕️ 🌿 Z5–8

PERENNIAL SMALL

Geranium 'Johnson's Blue'

CRANESBILL A clump-forming perennial with deeply lobed green leaves and saucer-shaped lavender-blue summer flowers. Plant in groups at the front of a bed and let it create a mat of colorful blooms. Cut back tired foliage in summer.

↑12in (30cm) ↔24in (60cm)

☀️ ☕️ 🌿 Z4–8

PERENNIAL SMALL

Euphorbia polychroma

CUSHION SPURGE This perennial forms mounds of small green leaves on upright stems. In spring, it bears small yellow flowers surrounded by lime-yellow bracts. Ideal for the front of a bed, it is best planted in groups to cover the ground effectively.

↑↔20in (50cm)

☀️ ☕️ ⚠️ Z5–8

SHRUB SMALL

Gaultheria procumbens

WINTERGREEN This evergreen shrub forms a dense mat of oval glossy green leaves. Small pink and white summer blooms lead to attractive scarlet fall berries. Ideal for planting beneath large shrubs. Needs moist soil and does best in cooler areas.

↑6in (15cm) ↔indefinite

☀️ ☕️ 🌿 ⚠️ Z3–8 (N)

PERENNIAL SMALL

Geranium macrorrhizum

BIGROOT GERANIUM This resilient perennial forms a carpet of deeply lobed aromatic leaves. Small magenta blooms appear in early summer. Ideal for the front of a bed or beneath large shrubs. Best in partial shade in areas with hot summers.

↑15in (38cm) ↔24in (60cm)

☀️ ☕️ 🌿 Z4–8
