

SHRUB SMALL

Rosa Flower Carpet Series

GROUNDCOVER ROSE This rose forms a spreading mass of disease-resistant, glossy green foliage and semidouble white, yellow, pink, and red flowers. Blooms continuously from spring through fall. The leafy stems are useful for covering large areas.

↑18in (45cm) ↔4ft (1.2m)

☀️ ☀️ Z5-9

SHRUB SMALL

Rosa KENT

GROUNDCOVER ROSE This spreading shrub rose has disease-resistant, glossy midgreen leaves and clusters of flat, white semidouble flowers from summer to fall. Deadhead regularly to encourage new blooms; mulch with organic matter in spring.

↑32in (80cm) ↔3ft (1m)

☀️ ☀️ Z5-9

PERENNIAL SMALL

Saxifraga stolonifera

MOTHER OF THOUSANDS Useful for covering shady corners, this spreading perennial forms rosettes of round, silver-veined dark green hairy leaves on spreading stems. In summer, it bears branching stems of small flaglike white blooms.

↑6in (15cm) or more ↔12in (30cm) or more

☀️ ☀️ ☀️ Z7-9

PERENNIAL SMALL

Sedum kamtschaticum

STONECROP Plant this spreading semievergreen perennial, with its orange-yellow late summer blooms, in groups or use to cover small areas. 'Variegatum' (above) has pink-tinted cream-edged leaves. Established plants are drought tolerant.

↑3in (8cm) ↔8in (20cm)

☀️ ☀️ ⚠️ Z3-8

PERENNIAL SMALL

Veronica gentianoides

GENTIAN SPEEDWELL This perennial forms a ground-hugging mat of tightly-knit glossy evergreen leaves, above which rise slender spikes of pale blue early summer flowers. Grow with later-flowering plants for prolonged interest. Remove spent blooms.

↑↑18in (45cm)

☀️ ☀️ ☀️ Z4-7

PERENNIAL SMALL

Stachys byzantina

LAMB'S EARS Ideal for dry sunny areas, this spreading perennial forms a dense carpet of downy gray-green leaves and, in summer, spikes of small pink blooms. An attractive front-of-border plant, it offers contrast to brightly colored plants.

↑15in (38cm) ↔24in (60cm)

☀️ ☀️ ☀️ Z4-8

PERENNIAL SMALL

Waldsteinia ternata

BARREN STRAWBERRY This semievergreen perennial forms spreading mats of scalloped-edged dark green leaves and bright yellow saucer-shaped flowers from late spring to early summer. It offers good ground cover in deep shade; may be aggressive.

↑4in (10cm) ↔12in (30cm)

☀️ ☀️ ☀️ ☀️ Z4-8

PERENNIAL MEDIUM

Tellima grandiflora

FRINGE CUPS Ideal for shady beds and woodland gardens, this semievergreen perennial forms a clump of textured, green heart-shaped leaves and, from late spring to midsummer, spikes of cream bell-shaped flowers. It spreads gradually.

↑↑24in (60cm)
