

PERENNIAL LARGE

Campanula lactiflora

MILKY BELLFLOWER An upright, branching perennial with narrowly oval green leaves and slender stems of nodding, bell-shaped blue, occasionally pink or white, blooms in midsummer. Needs reliably moist and fertile soil. Stake the stems on windy sites.

↑5ft (1.5m) ↔24in (60cm)

Z5-7

PERENNIAL LARGE

Canna 'Pretoria'

syn. *Canna 'Striata'* This upright perennial is grown for its green- and yellow-striped foliage and bright orange flowers, which appear from midsummer to early fall. Grow it in fertile soil, keep it well watered, and protect the rhizomes from frost.

↑5ft (1.5m) ↔20in (50cm)

Z8-11

TREE MEDIUM

Cercis canadensis

EASTERN REDBUD This spreading deciduous tree or shrub has heart-shaped dark green leaves that turn yellow in fall. Pale pink pealike flowers emerge from bare stems in mid-spring. *C. canadensis* var. *alba* (above) has white flowers.

↑↔30ft (10m)

Z4-9 (N)

SHRUB MEDIUM

Chaenomeles speciosa

FLOWERING QUINCE A bushy, vigorous deciduous shrub with thorny stems and oval dark green leaves. Red, white, or pink flowers are borne from early- to mid-spring, followed by fragrant yellow fruits.

↑8ft (2.5m) ↔15ft (5m)

Z4-8

PERENNIAL SMALL

Chrysanthemum 'Grandchild'

DECORATIVE GARDEN MUM This upright perennial has dark green lobed leaves and, from late summer to early fall, produces branching heads of bright mauve double flowers. It is good for cutting; deadhead regularly to prolong the flowering display.

↑18in (45cm) ↔16in (40cm)

Z5-9

PERENNIAL SMALL

Dodecatheon meadia

SHOOTING STAR This is a clump-forming perennial with pale green leaves. In spring, clusters of small purple flowers with reflexed petals appear, but it then becomes dormant in summer. *D. meadia* f. *album* (above) has white flowers.

↑8in (20cm) ↔6in (15cm)

Z4-8 (N)

CLIMBER MEDIUM

Clematis JOSEPHINE

CLEMATIS This deciduous climber has green lance-shaped leaves. From summer to early fall, a succession of large double flowers appear; the pinkish purple petals are cream beneath, giving a layered effect. Best in rich soil; keep the roots shaded.

↑8ft (2.5m)

Z4-9

SHRUB MEDIUM

Corylopsis pauciflora

BUTTERCUP WINTER HAZEL A spreading bushy deciduous shrub with oval bright green leaves, similar to a beech tree's, which are bronze when young. It bears fragrant, tubular to bell-shaped, pale yellow flowers from early- to mid-spring.

↑5ft (1.5m) ↔8ft (2.5m)

Z6-8

SHRUB SMALL

Deutzia x elegantissima 'Rosealind'

ELEGANT DEUTZIA This rounded deciduous shrub has a flaky bark and dark green leaves. It bears clusters of sweet-smelling star- or cup-shaped flowers with a pink tinge from late spring to early summer.

↑4ft (1.2m) ↔5ft (1.5m)

Z6-8

SHRUB LARGE

Enkianthus campanulatus

REDVEIN ENKIANTHUS A large, spreading deciduous shrub with tufts of dull green leaves that turn bright red in fall. Small bell-shaped flowers in creamy yellow, veined pink to red, appear in late spring or early summer. It prefers acidic soil.

↑12ft (4m) ↔10ft (3m)

Z4-7
