

PERENNIAL MEDIUM

***Euphorbia griffithii* 'Fireglow'**

GRIFFITH'S SPURGE This upright bushy perennial has decorative lance-shaped midgreen leaves with pale red midribs. In early summer, it produces rounded clusters of small orange-red flowers. The sap is a skin irritant.

†30in (75cm) ↔20in (50cm)

☹️ ⚠️ Z4–9

PERENNIAL LARGE

Filipendula rubra

QUEEN OF THE PRAIRIE An upright perennial with large aromatic leaves divided into jagged-edged green leaflets and, in midsummer, feathery plumes of soft rose-pink tiny flowers, which turn pale as they age. Use it at the back of a boggy site.

†8ft (2.5m) ↔4ft (1.2m)

☹️ Z3–8 (N)

PERENNIAL SMALL

***Geranium* 'Ann Folkard'**

CRANESBILL This spreading perennial forms mats of ivy-shaped, deeply cut bright yellowish green foliage. It produces an abundance of small rich magenta flowers with black centers and veins in midsummer. It may also bloom in fall.

†20in (50cm) ↔3ft (1m)

☹️ Z5–9

PERENNIAL MEDIUM

Filipendula ulmaria

MEADOWSWEET A deciduous perennial bog plant with leafy stems bearing midgreen divided foliage. Plumelike spikes of creamy white flowers form in midsummer. It self-seeds and is considered invasive in some areas.

†3ft (1m) ↔24in (60cm)

☹️ Z3–9

SHRUB LARGE

Forsythia x intermedia

BORDER FORSYTHIA This vigorous, upright deciduous shrub has long stems covered with small, star-shaped yellow flowers from late winter to mid-spring, before the small bright green leaves appear. Varieties include 'Lynwood Variety' (above).

†↔10ft (3m)

☹️ Z5–8

SHRUB SMALL

Fothergilla gardenii

DWARF FOTHERGILLA This is a bushy deciduous shrub with dark blue-green oval leaves that turn red, orange, and yellow in fall. Clusters of fragrant, white bottlebrush flowers appear from mid- to late spring. Best grown in fertile soil.

†↔3ft (1m)

☹️ ㅅ Z4–8 (N)

PERENNIAL MEDIUM

***Helenium* 'Moerheim Beauty'**

SNEEZEWEED A medium-sized upright perennial with dark green foliage below strong branching stems. Sprays of rich coppery red daisy-like flowers appear from mid- to late summer. It makes a valuable late season border plant.

†3ft (1m) ↔24in (60cm)

☹️ ⚠️ Z4–8

PERENNIAL MEDIUM

***Helenium* 'Wyndley'**

SNEEZEWEED An upright perennial with branching stems bearing sprays of daisy-like orange-yellow flower heads for a long period, starting from late summer to fall. The foliage is dark green. It needs regular division in spring or fall.

†32in (80cm) ↔20in (50cm)

☹️ ⚠️ Z4–8

PERENNIAL LARGE

***Helianthus* 'Lemon Queen'**

PERENNIAL SUNFLOWER This tall, vigorous, upright perennial has stout branched stems bearing coarse, lance-shaped dark green leaves and large, pale yellow daisy-like flowers from late summer to fall. Provide plant with plenty of space in back of border.

†5ft (1.5m) ↔24in (60cm) or more

☹️ Z4–9 (N)
