

PERENNIAL MEDIUM

Sanguisorba menziesii

BURNET A clump-forming upright perennial with attractive, feathery blue-gray leaves. The fluffy red bottlebrush flowers are held on tall stems and appear from early summer to early fall. The seedheads retain their color through winter.

‡30in (75cm) ↔24in (60cm)

💧 Z4–8 (N)

PERENNIAL LARGE

Thalictrum aquilegiifolium

MEADOW RUE An upright clump-forming perennial with divided blue-green leaves and slender branched stems topped with fluffy mauve-pink or white flowers from early- to midsummer. Grow in coastal or cold gardens in soil that does not dry out.

‡4ft (1.2m) ↔18in (45cm)

💧 Z5–8

PERENNIAL LARGE

Rudbeckia laciniata

CUTLEAF CONEFLOWER This tall upright perennial has lance-shaped foliage and, from late summer to fall, daisy-like, single, green-centered yellow flowers. Leaf faded flower heads for winter interest. Varieties include 'Autumn Sun' (above).

‡7ft (2.3m) ↔30in (75cm)

💧 Z3–9 (N)

PERENNIAL LARGE

Veronicastrum virginicum

CULVER'S ROOT A large upright perennial with tall stems of dark green lance-shaped leaves. From late summer to early fall, it produces spikes of small, star-shaped white, blue, or pink blooms. 'Album' (above) has white flowers.

‡4ft (1.2m) ↔18in (45cm)

💧 Z4–8 (N)

PERENNIAL LARGE

Sanguisorba canadensis

CANADIAN BURNET This is an upright, clump-forming perennial with divided midgreen leaves and bottlebrush white flower heads from summer to early fall. Plant in swaths for best effect in moist soil in cold, exposed gardens.

‡6ft (2m) ↔24in (60cm)

💧 Z3–8 (N)

PERENNIAL MEDIUM

Solidago GOLDEN BABY

GOLDENROD This is an upright clump-forming perennial with narrow, pointed green leaves. From midsummer to early fall, it produces flattened heads of small golden-yellow flowers. Deadhead to prolong the flowering display.

‡24in (60cm) ↔18in (45cm)

💧 Z4–8

SHRUB MEDIUM

Viburnum acerifolium

MAPLELEAF VIBURNUM An upright deciduous shrub with bright green leaves that turn orange, red, and purple in fall. Decorative red fruits, which turn purple-black, follow creamy white flower heads in early summer. The berries are poisonous.

‡6ft (2m) ↔4ft (1.2m)

💧 ! Z4–8 (N)

SHRUB LARGE

Syringa vulgaris

COMMON LILAC This vigorous deciduous shrub has midgreen heart-shaped foliage. In late spring, it bears large conical clusters of highly fragrant purple, pink, and white flowers. 'Paul Thirion' (above) has rose-pink blooms. Considered invasive in some areas.

‡→22ft (7m)

💧 Z3–7
