

Patio and miniature roses Averaging 12in (30cm) tall miniature roses are ideal for the front of the flower bed or as a container plant.

Climbing roses The thick rigid canes of climbing roses allow for a beautiful show of blossoms on a wall, trellis, or arbor.

Rambling roses An annual display of thick clusters of small flowers on long, slender, and flexible canes make this rose a favorite to many.

Groundcover roses Sometimes called landscape roses, these were developed to be easy to care for and useful for planting in mass.
