

PERENNIAL MEDIUM

Helictotrichon sempervirens

BLUE OAT GRASS An evergreen perennial grass with stiff silvery blue leaves forming a large, airy mound and, in early summer, long arching stems of straw-colored flowers that are followed by long-lasting seedheads.

↑3ft (1m) ↔24in (60cm)

☀ Z4–8

SHRUB LARGE

Juniperus scopulorum

ROCKY MOUNTAIN JUNIPER This conifer has a neat, narrow columnar habit, and does not require pruning. It has bright, steel-blue scalelike foliage and tolerates hot, dry sites. Plant it at the back of a border or as a "focal" plant.

↑50ft (15m) ↔20ft (6m)

☀ Z3–7 (N)

BULB LARGE

Lilium 'Red Hot'

ASIATIC LILY This large bulb produces long arching stems of slender green leaves topped with clusters of large, richly scented, white-edged rose-pink flowers during summer. The stems may need to be supported in exposed gardens.

↑3ft (1m)

☀ Z5–8

PERENNIAL LARGE

Kniphofia uvaria

RED-HOT POKER An upright perennial with strap-shaped evergreen leaves, above which rise tall spikes of bicolored, cone-shaped flower heads in late summer. The small, tubular red and yellow flowers open from the base of the cluster.

↑4ft (1.2m) ↔24in (60cm)

☀ Z5–9

PERENNIAL SMALL

Limonium sinuatum

STATICE A bushy perennial, grown as an annual, with lance-shaped, lobed deep green leaves and, from summer to early fall, clusters of tiny yellow, blue, or pink blooms that are ideal for drying. Varieties include the Fortress Series (above).

↑16in (40cm) ↔12in (30cm)

☀ Z8–9

SHRUB LARGE

Hibiscus syriacus

ROSE OF SHARON A upright deciduous shrub with deep green lobed leaves. From late summer to mid-fall, it bears large blue, pink, or white saucer-shaped blooms. 'Red Heart' (above) has white flowers with pink center. Considered invasive in some areas.

↑10ft (3m) ↔6ft (2m)

☀ Z5–9

SHRUB SMALL

Lavandula 'Willow Vale'

SPANISH LAVENDER A hybrid form of the traditional French lavender, this is an evergreen subshrub with narrow, aromatic gray-green foliage. From early to midsummer, it produces purple flowers topped with wavy flower bracts.

↑↔28in (70cm)

☀ Z8–9

SHRUB SMALL

***Juniperus communis*
'Compressa'**

COMMON JUNIPER A slow-growing, dwarf evergreen coniferous shrub. It forms a slim, dense, tapering column of blue-gray foliage, and may need protection from cold winds in winter.

↑32in (80cm) ↔18in (45cm)

☀ Z2–6 (N)

BULB LARGE

Lilium 'Gran Paradiso'

ASIATIC LILY This bulb has upright stems with slender, red-flushed green leaves that are topped with heads of large, open, unscented deep orange flowers. It will gradually form a clump if left in the soil over winter. Stems may require support.

↑3ft (1m)

☀ Z4–9

ANNUAL/BIENNIAL SMALL

Linaria maroccana

TOADFLAX A fast-growing, bushy annual with lance-shaped pale green leaves and tiny snap-dragon-like flowers in shades of red, pink, purple, yellow, or white during summer. Varieties include 'Fairy Bouquet' (above), which flowers in many colors.

↑8in (20cm) ↔6in (15cm)

☀
