

SHRUB LARGE

Physocarpus opulifolius

NINEBARK A deciduous shrub with rounded lobed leaves. Compact, dome-shaped clusters of small white flowers appear in early summer, followed by reddish brown fruits. 'Diabolo' (above) sports deep purple foliage.

↑10ft (3m) ↔15ft (5m)

☀ Z3-7 (N)

SHRUB LARGE

Pittosporum tenuifolium

KOHUHU A columnar, later rounded, evergreen shrub or small tree with purple shoots and wavy-edged, oval, glossy midgreen leaves. In late spring, it bears tiny, honey-scented purple flowers. Best in West Coast gardens.

↑30ft (10m) ↔15ft (5m)

☀ Z9-11

PERENNIAL SMALL

Potentilla 'Gibson's Scarlet'

CINQUEFOIL This clump-forming perennial has dark green leaves that resemble those of a strawberry plant. From early- to late summer, it produces saucer-shaped, bright scarlet flowers on branching stems. It also grows in part shade.

↑18in (45cm) ↔24in (60cm)

☀ Z5-8

SHRUB MEDIUM

Prunus tenella

DWARF RUSSIAN ALMOND This is a medium-sized, bushy, upright deciduous shrub with narrowly oval, glossy green leaves. From mid- to late spring, the stems are clothed in bright pink saucer-shaped flowers.

↑↔5ft (1.5m)

☀ (I) Z2-6

PERENNIAL MEDIUM

Rudbeckia hirta

BLACK-EYED SUSAN This is an upright, short-lived perennial, often grown as an annual, with midgreen leaves. From summer to fall, it produces daisy-like, golden or red flowers with brown centers. Varieties include 'Becky Mixed' (above).

↑up to 3ft (1m) ↔18in (45cm)

☀ Z3-7 (N)

TREE LARGE

Quercus coccinea

SCARLET OAK This deciduous tree forms a rounded head of glossy, dark green lobed leaves. In fall, the foliage turns bright red, producing a bold display that can last for several weeks. Small acorns form at the same time. Best in large gardens.

↑70ft (20m) ↔50ft (15m)

☀ Z4-9 (N)

PERENNIAL MEDIUM

Salvia x sylvestris

WOOD SAGE This is a compact perennial with small, dark green aromatic leaves. From early- to midsummer, 'May Night' (above) produces spikes of two-lipped, indigo-blue flowers over a long period. It is attractive to butterflies and bees.

↑32in (80cm) ↔12in (30cm)

☀ Z4-9

SHRUB SMALL

Santolina chamaecyparissus

LAVENDER COTTON A rounded subshrub with soft, woolly, silvery white, finely divided foliage and short stems of yellow pom-pom flowers in summer. Trim after flowering. 'Lemon Queen' (above) has gray foliage and cream-colored blooms.

↑30in (75cm) ↔3ft (1m)

☀ Z6-9

PERENNIAL LARGE

Romneya coulteri

TREE POPPY A vigorous, bushy, shrubby perennial with deeply divided gray-green leaves. It is grown for its large, fragrant, papery, golden-centered white flowers, which appear on stout stems in late summer. Mulch well with compost in fall.

↑↔6ft (2m)

☀ Z8-10 (N)

PERENNIAL MEDIUM

Scabiosa atropurpurea

PINCUSHION FLOWER This clump-forming perennial, grown as an annual, has lance-shaped gray-green leaves and masses of domed, lilac-purple summer flowers, adorned with creamy anthers that look like pins. Considered invasive in some areas.

↑3ft (1m) ↔12in (30cm)

☀ Z9-11
