

SHRUB MEDIUM

Symphoricarpos x doorenbosii

SNOWBERRY This dense, vigorous deciduous shrub has small, round dark green leaves and greenish white summer flowers, which are followed by round white fruits. Use it as an informal hedge; trim annually in early spring.

↑6ft (2m) ↔indefinite

☹️ ⚠️ Z4–7

TREE SMALL

Taxus x media

YEW This evergreen conifer has flattened, needlelike dark green leaves and tiny white summer blooms, followed by red berries on female plants. It is faster growing than *T. baccata*; trim in spring and summer. All parts are toxic.

↑20ft (6m) ↔12ft (4m)

☹️ ⚠️ Z5–7

TREE LARGE

Tsuga heterophylla

WESTERN HEMLOCK An evergreen conifer with drooping stems bearing needlelike, flattened dark green leaves that have silvery bands beneath. The green cones ripen to dark brown. Makes a tall, dense formal hedge; trim in early fall.

↑100ft (30m) ↔30ft (10m)

☹️ Z6–8 Ⓝ

TREE LARGE

Thuja occidentalis

AMERICAN ARBORVITAE This evergreen conifer produces flat sprays of scalelike yellowish green leaves that are pale or grayish green beneath, and yellow-green cones that ripen to brown. It makes a dense formal hedge; trim in late winter.

↑50ft (15m) ↔15ft (5m)

☹️ Z2–7 Ⓝ

SHRUB LARGE

Viburnum farreri

FRAGRANT VIBURNUM This upright deciduous shrub has dark green foliage, bronze-tinted when young. From late fall to early spring, it bears fragrant white or pale pink blooms. Use as an informal screen; trim after flowering.

↑10ft (3m) ↔8ft (2.5m)

☹️ ⚠️ Z5–8

SHRUB LARGE

Syringa vulgaris

COMMON LILAC This upright, spreading deciduous shrub has glossy green leaves and blue, pink, or white scented flower spikes in summer. Use as an informal boundary; clip lightly after flowering. It has become invasive in many areas of the US.

↑↔22ft (7m)

☹️ Z3–7

TREE LARGE

Thuja plicata

WESTERN RED CEDAR This is an evergreen conifer with scalelike, glossy dark green leaves, which give off a pineapple aroma when crushed. The green cones ripen to brown. Suitable as a formal hedge; trim it annually in late winter.

↑100ft (30m) ↔25ft (8m)

☹️ Z5–7 Ⓝ

SHRUB LARGE

Viburnum tinus

LAURUSTINUS This is a bushy evergreen shrub with oval dark green leaves. Abundant flat heads of small white blooms open from pink buds during late winter and spring. Use as an informal screen; trim after flowering.

↑↔10ft (3m)

☹️ ⚠️ Z8–10

TREE LARGE

Taxus baccata

ENGLISH YEW A bushy evergreen tree with needlelike dark green leaves and red berries in fall. It makes a superb hedge for boundaries or dividing up a garden. Clip in spring and summer; tolerates hard pruning, if necessary. All parts are highly toxic.

↑50ft (15m) ↔30ft (10m)

☹️ ⚠️ Z6–7

TREE LARGE

Tilia cordata

LITTLELEAF LINDEN This deciduous tree has heart-shaped, glossy dark green leaves that turn yellow in fall. Small yellowish white flowers appear in summer. Ideal for pleaching or as a formal hedge; trim in summer.

↑100ft (30m) ↔40ft (12m)

☹️ Z3–7
