

Plants for beside hedges, walls, and fences

PERENNIAL MEDIUM

Iris 'Edith Wolford'

BEARDED IRIS This tall iris is an upright semievergreen perennial with sword-shaped gray-green foliage. The blooms appear in late spring and are pale yellow with blue-violet lower petals. Plant the rhizomes just above the soil surface.

↑3ft (1m) ↔24in (60cm)

☀ Z3–9

TREE LARGE

Magnolia grandiflora

SOUTHERN MAGNOLIA A rounded evergreen tree with large, glossy dark green leaves and large, fragrant white flowers from midsummer to early fall. It prefers the shelter provided by south-facing walls. Prune in spring to keep it in check.

↑60ft (18m) ↔50ft (15m)

☀ Z7–9 (N)

PERENNIAL LARGE

Helianthus 'Lemon Queen'

PERENNIAL SUNFLOWER This vigorous, upright, rhizomatous perennial bears stout branched stems of rough, oval dark green leaves. It produces masses of large, daisy-like pale yellow flower heads with dark yellow centers from summer to fall.

↑5ft (1.5m) ↔24in (60cm) or more

☀ Z4–9 (N)

PERENNIAL MEDIUM

Iris pallida 'Argentea Variegata'

DALMATIAN IRIS An upright semievergreen perennial with sword-shaped gray-green and white-striped foliage and pale blue-purple early summer flowers. Plant the rhizomes just above the soil surface.

↑4ft (1.2m) ↔indefinite

☀ (I) Z4–9

TREE MEDIUM

Magnolia stellata

STAR MAGNOLIA A rounded deciduous tree with fragrant, star-shaped white flowers that open from silky buds in early spring, before the slim green leaves appear. Plant close to a south-facing wall to protect the blooms from frost.

↑↔30ft (10m)

☀ Z4–8

SHRUB LARGE

Hibiscus syriacus

ROSE OF SHARON This upright deciduous shrub has lobed dark green foliage and single blue, violet, or white flowers with dark centers from late summer to early fall. 'Blue Bird' (above) is a blue-flowered variety. Considered invasive in some areas.

↑10ft (3m) ↔6ft (2m)

☀ Z5–9

SHRUB LARGE

Juniperus scopulorum

ROCKY MOUNTAIN JUNIPER This is a narrow, upright conifer with a columnar habit. It produces bright steel-blue scalelike foliage and tolerates hot dry sites in front of walls or hedges. No pruning is required.

↑50ft (15m) ↔20ft (6m)

☀ Z3–7 (N)

SHRUB MEDIUM

Lupinus arboreus

TREE LUPINE This is a fast-growing, sprawling semievergreen shrub that, in early summer, bears short spikes of fragrant yellow flowers above hairy, feathery pale green leaves. Best in sandy soil; it can be short-lived.

↑↔6ft (2m)

☀ (I) Z9–10 (N)

BULB LARGE

Nectaroscordum siculum

MEDITERRANEAN BELLS An upright bulb with narrow, garlic-scented green leaves that fade when fountain-shaped clusters of pendent, bell-shaped cream and purple summer flowers appear on tall stems. Known for its shuttlecock-like seedheads.

↑4ft (1.2m)

☀ Z6–10
