

Plants for walls, fences, and vertical surfaces

CLIMBER LARGE

Lablab purpureus

HYACINTH BEAN This twining deciduous climber, often grown as an annual, has small dark green leaves and pink pealike summer flowers followed by decorative, long purple pods. Seedpods are toxic. Grow it on a fence, arch, or pillar.

‡20ft (6m)

☪ ⚠ Z9–11

CLIMBER LARGE

Lonicera x brownii
'Dropmore Scarlet'

SCARLET TRUMPET HONEYSUCKLE This twining semievergreen or deciduous climber has rounded blue-green leaves and tubular, unscented scarlet blooms from summer to early fall. Protect in winter.

‡12ft (4m)

☪ ⚠ Z4–8

CLIMBER LARGE

Lonicera x heckrottii

GOLDFLAME HONEYSUCKLE This twining deciduous or semievergreen climber has oval dark green leaves, blue-green beneath. In summer, it produces fragrant pink flowers with orange throats, sometimes followed by red berries. Provide a large support.

‡15ft (5m)

☪ ⚠ Z6–9

CLIMBER MEDIUM

Mandevilla x amoena
'Alice du Pont'

MANDEVILLA A tender evergreen climber with dark green foliage and funnel-shaped pink flowers. Each bloom lasts several days. Grow it indoors in cold areas, or treat as an annual and train up a tripod or arch.

‡10ft (3m)

☪ ⚠ Z0

CLIMBER LARGE

Parthenocissus henryana

CHINESE VIRGINIA CREEPER This vigorous, self-clinging deciduous climber is grown for its palm-shaped dark green leaves with cream veining, which turns crimson in fall, when blue-black berries are also produced. Leaf color is best in light shade.

‡30ft (10m) or more

☪ Z7–8

CLIMBER LARGE

Lonicera periclymenum

WOODBINE This twining deciduous climber bears oval dark green leaves, whitish green below, and richly scented, tubular creamy white, yellow, or red flowers in summer. Use it to cover arbors, walls, fences, or trees. May be invasive in some areas.

‡22ft (7m)

☪ ⚠ Z5–9

CLIMBER LARGE

Parthenocissus quinquefolia

VIRGINIA CREEPER This is a large, vigorous, self-clinging deciduous climber with rounded green leaves divided into oval toothed-edged leaflets. These turn bright red and orange in fall. Grow it against a large support.

‡50ft (15m) or more

☪ Z4–9 (N)

CLIMBER LARGE

Lonicera x tellmanniana

TELLMANN'S HONEYSUCKLE A twining deciduous climber with blue-green leaves. Bright coppery orange, unscented flowers are carried in clusters from late spring to summer. Ideal for growing through a tree, or on a house wall or large fence.

‡15ft (5m)

☪ ⚠ Z7–9

CLIMBER LARGE

Parthenocissus tricuspidata

BOSTON IVY This large, vigorous, woody-stemmed, deciduous tendril climber produces a spectacular, crimson leaf color in fall, and dull blue berries. Easily covers large expanses of wall. Considered invasive in some areas.

‡70ft (20m)

☪ Z4–8
