

CLIMBER LARGE

***Passiflora caerulea***

**BLUE PASSION FLOWER** A semievergreen or evergreen tendril climber with glossy, lobed green leaves. From summer to fall, it bears white flowers with purple filaments, followed by egg-shaped orange fruits. Needs a large support. Protect from cold.

‡30ft (10m) or more

☀ Z8–11

CLIMBER LARGE

***Plumbago auriculata***

**CAPE LEADWORT** A scrambling evergreen climber with small dark green leaves. Large clusters of sky-blue flowers appear from summer to early fall. Train on a trellis against a sunny, sheltered wall outside or under cover in regions with cold winters.

‡20ft (6m)

☀ Z9–11

CLIMBER MEDIUM

***Rhodochiton atrosanguineus***

**PURPLE BELL VINE** An annual climber, native to Mexico, with heart-shaped midgreen leaves. From late spring to late fall, it bears dangling, umbrella-shaped flowers with pinky red “hats” and dark maroon lower tubes. Ideal for a tripod.

‡10ft (3m)

☀ Z10–11 ☹

CLIMBER LARGE

***Rosa 'Albertine'***

**CLIMBING ROSE** This vigorous ramblar rose has arching, thorny reddish stems and glossy dark green foliage. In summer, it produces clusters of scented, fully double salmon-pink flowers in a single flush. Grow it up a tree or on a large arbor.

‡15ft (5m)

☀ Z5–9

CLIMBER MEDIUM

***Rosa 'Aloha'***

**CLIMBING HYBRID TEA ROSE** This climbing rose has disease-resistant, leathery dark green leaves. Fragrant, fully double rose- and salmon-pink flowers form in summer and again in fall. Train the stems over an arch or on a wall. Mulch annually in spring.

‡8ft (2.5m)

☀ Z5–9

CLIMBER LARGE

***Rosa banksiae 'Lutea'***

**YELLOW BANKSIAN ROSE** A vigorous, thornless climbing rose with small leaves. In late spring, it bears clusters of unscented, fully double, rosette-shaped yellow flowers in one flush. Needs a sunny, sheltered wall or fence; protect from drying winds.

‡30ft (10m)

☀ Z8–9

CLIMBER LARGE

***Rosa 'Climbing Cécile Brunner'***

**POLYANTHA ROSE** A vigorous climber with disease-resistant dark green leaves and, from summer to late fall, masses of fully double, sweetly-scented blush-pink blooms, fading to pearl. Ideal for an arbor or wall.

‡15ft (5m)

☀ Z5–9

CLIMBER LARGE

***Rosa 'Climbing Lady Hillingdon'***

**CLIMBING HYBRID TEA ROSE** This vigorous rose has dark green foliage that is coppery mahogany when young. Fragrant apricot-yellow flowers are borne all summer. Train on a house wall or on an arbor.

‡15ft (5m)

☀ Z6–9

CLIMBER MEDIUM

***Rosa 'Compassion'***

**CLIMBING HYBRID TEA ROSE** A climbing rose with disease-resistant, dark green glossy leaves. From summer to fall, it produces fragrant, double salmon-apricot flowers, which are tinted pink, on thorny stems. Grow it on a wall or an arbor.

‡10ft (3m)

☀ Z5–9
