CLIMBER MEDIUM

Rosa 'Dublin Bay'

CLIMBING ROSE This rose produces disease-resistant, glossy dark green foliage and clusters of bright crimson double flowers in summer and again in fall. Grow it against a wall or on an arch or post. Mulch in spring.

↑7ft (2.2m)

△ Z5–9

CLIMBER LARGE

Rosa 'Félicité Perpétue'

RAMBLING HYBRID SEMPERVIRENS ROSE A vigorous rose with glossy green semievergreen leaves. Clusters of scented, fully double, bluish pink to white flowers are produced in a single flush in summer. Grow it up a tree or large wall or over an arbor.

↑15ft (5m)

△ Z6–9

CLIMBER MEDIUM

Rosa 'Laura Ford'

CLIMBING MINIATURE ROSE This stiffly branching, climbing rose has small, dark, glossy, disease-resistant leaves. Sprays of scented, urn-shaped to flat, yellow double flowers appear in summer and again in fall. Grow it on arches or pillars.

↑7ft (2.2m)

△ Z5–9

CLIMBER LARGE

Rosa 'Mermaid'

HYBRID BRACTEATA ROSE This large rose bears glossy, green, disease-resistant foliage and flowers repeatedly from summer to fall producing single primrose-yellow blooms. The thorny stems can be used to deter intruders.

↑20ft (6m)

△ Z7–9

CLIMBER LARGE

Rosa 'Seagull'

RAMBLING ROSE A vigorous rose with disease-resistant, glossy light green leaves. In late spring, it bears clusters of fragrant, single, golden-centered white flowers in one flush. Grow it up a tree, large wall, or fence. Best for large gardens.

↑20ft (6m)

△ Z5–9

CLIMBER LARGE

Rosa 'Rambling Rector'

RAMBLING ROSE A vigorous rose with disease-resistant, grayish green foliage. Clusters of scented, golden-centered, creamy white semidouble flowers form in one flush in summer. Grow it up a tree, large wall, or fence. Best for large gardens.

↑20ft (6m)

△ Z5–9

CLIMBER LARGE

Rosa 'New Dawn'

CLIMBING ROSE A climbing rose with disease-resistant, glossy dark green leaves and clusters of fragrant, pearl-pink double flowers from summer to fall. Ideal for sunny walls, fences, or arbors, it also tolerates north-facing sites. Mulch in spring.

↑15ft (5m)

△ Z5–9

CLIMBER MEDIUM

Rosa 'Summer Wine'

CLIMBING ROSE This climbing rose has disease-resistant, dark green leaves and small clusters of fragrant, flat-faced, semidouble coral-pink flowers from summer to fall. Ideal for a wall, fence, arch, or pillar. Mulch annually in spring.
