PLANT HOOTS, GRASSES AND MORE

Toxic plants Some plants are toxic or have irritating sap and should only be handled when wearing gloves.

Soil type This symbol shows the ideal soil type for the plant, although some plants will tolerate a range of growing conditions.

Sun or shade In the first section of the book, the ideal location for the plant is indicated by the sun or shade symbol located here.

Common names Some plants have more than one common name. Only the most widely used are given here.

Plant type and size These labels show what type the plant is, such as a tree, shrub, or perennial, and indicate its size. Use these for quick reference when choosing plants; the description provides detailed information.

CLIMBER LARGE

Gelsemium sempervirens

CAROLINA YELLOW JASMINE This evergreen twining climber has slim, lance-shaped dark green leaves. In summer, it produces clusters of trumpet-shaped bright yellow flowers. Grow against a sunny, sheltered wall or fence. All parts are toxic.

120ft (6m)

☀️ ⚠️ Z7-9 🌳

Plant hardiness This shows the plant's ability to survive low temperatures. However, plants may die of other causes as well.

PERENNIAL SMALL

Sedum spectabile
SHOWY STONECROP This sedum is a clump-forming perennial with succulent stems of fleshy gray-green leaves. From late summer to fall, it bears flat heads of pink flowers, followed by winter seedheads. Varieties include 'Brilliant' (above).

12-18in (45cm)

☀️ Z4-9

PERENNIAL MEDIUM

Solidago golden baby
GOLDENROD This perennial forms an upright clump of stems with narrow, pointed green leaves. From midsummer to early fall, it produces branching stems of small golden-yellow blooms. Deadhead to prolong the flowering display.

12-24in (60cm) 18ft (45cm)

☀️ Z4-8

PERENNIAL MEDIUM

Stipa tenuissima
MEXICAN FEATHER GRASS A deciduous perennial that forms a tuft of fine green leaves. From early summer, it produces panicles of silvery green flowers that turn beige as seeds form, giving the plant a hairlike appearance. Can be trained on a wall.

12in (60cm) 15in (40cm)

☀️ Z7-11 🌳

SHRUB MEDIUM

Spiraea nipponica
SPIREA This is a spreading deciduous shrub with arching stems of narrow dark green leaves and dense clusters of white or pink flowers, which appear in early summer. Varieties include the white-flowered 'Snowmound' (above).

2-8ft (2.5m)

☀️ Z4-8

PERENNIAL SMALL

Stokesia laevis
STOKES ASTER An evergreen perennial with narrow midgreen leaves. It produces large, cornflowerlike, lavender- or purple-blue flowers on short stems from summer to mid-fall. Varieties include 'Purple Parasol' (above).

12-18in (45cm)

☀️ Z5-9 🌳

ANNUAL/BIENNIAL LARGE

Verbascum olympicum
OLYMPIC MULLEN A semi-evergreen biennial or short-lived perennial with rosettes of gray-felted leaves and tall branching stems of saucer-shaped, bright golden flowers, which appear from mid- to late summer. It may need staking.

18ft (2m) 3ft (1m)

☀️ Z5-9

PERENNIAL MEDIUM

Veronica austriaca
subsp. leucurum
SAW-LEAVED SPEEDWELL This upright perennial has dark green, toothed-edged leaves and spikes of rich blue flowers in early summer. Deadhead to promote more flowers the following year.

12-24in (60cm)

☀️ Z4-8

BULB MEDIUM

Zephyranthes candida
RAIN LILY A tender bulb with narrow, erect grassy leaves. In summer, leafless stems carry white crocuslike flowers. Plants often burst into bloom following heavy rain. Add plenty of organic matter to the soil. Bulbs can be lifted for winter.

10in (25cm)

☀️ Z7-9

OTHER SUGGESTIONS

Perennials

Acanthus spinosus • *Achillea filipendulina* • *Anemone hepatica* 'September Charm' • *Antennaria laciniata* • *Baptisia australis* • *Campanula persicifolia* • *Cephalanthus giganteus* • *Coreopsis verticillata* 'Grandiflora' • *Echinops sto* • *Salvia lyrata* 'Purple Knockout' • *Salvia nemorosa* 'Caradonna' • *Symphoricarpos cordifolius* 'Aurora' • *Symphoricarpos* 'Monte Cassino' • *Veronica stricta* • *Veronica stricta* • *Veronica stricta*

Shrubs

Cephalanthus occidentalis • *Morella cerifera*

Trees

Ginkgo biloba 'Princeton Sentry' • *Juniperus virginiana* 'Burkii' • *Quercus stellata* • *Washingtonia robusta*

KEY TO SYMBOLS

- ☀️ Prefers sun
- ☀️ Prefers partial shade
- ☀️ Tolerates full shade
- 💧 Prefers well-drained soil
- 💧 Prefers moist soil
- 💧 Prefers wet soil
- ⚠️ Toxic or irritant
- 🌳 Needs acid soil

Z1-13 USDA plant hardiness zones

Based on the average annual minimum winter temperature, these zones indicate where a plant is most likely to thrive. A zone map is located at the front and back of the book.

🌳 **North American natives**
Plants with this symbol are indigenous to US, Canada, and/or Mexico.
