

TREE MEDIUM

Laurus nobilis

BAY LAUREL This conical evergreen shrub is grown for its leathery, glossy, aromatic dark green leaves that can be used for cooking. Plant it in a large container of soil-based potting mix; clip it to form topiary shapes. Prune regularly to restrict its size.

‡ 40ft (12m) ↔ 30ft (10m)

☀ Z8–10

SHRUB SMALL

Lavandula stoechas

SPANISH LAVENDER This evergreen subshrub has aromatic gray-green foliage. From late spring to summer, it bears blue, white, or mauve scented flowers with upright “ears.” ‘Kew Red’ (above) has deep pink flowers. Plant in soil-based potting mix.

‡ 18in (45cm)

☀ Z8–9

PERENNIAL SMALL

Lobelia erinus

TRAILING LOBELIA A perennial, grown as an annual, with tiny green leaves. Masses of small white, blue, or mauve blooms appear in summer. Use it to edge windowboxes, pots, or baskets, and plant in potting soil. ‘Snowball’ (above) has white flowers.

‡ 9in (23cm) ↔ 6in (15cm)

☀ Z10–11

PERENNIAL SMALL

Matthiola incana

STOCK This is a small tender perennial, grown as an annual, that produces oval green leaves. Throughout summer, it bears spikes of clove-scented flowers in shades of pink, purple, and white. Plant it in containers of potting soil.

‡ 10in (25cm)

☀ Z6–9

BULB MEDIUM

Muscari latifolium

GRAPE HYACINTH A dwarf bulb with gray-green strap-shaped leaves and tiny, bell-shaped two-tone spring flowers, dark blue at the base and pale blue on top. Plant the bulbs in fall in containers of soil-based potting mix with added grit.

‡ 10in (25cm)

☀ Z4–8

PERENNIAL SMALL

Lotus berthelotii

CORAL GEM This trailing perennial, grown as an annual, has feathery silver-green foliage and clusters of summer flowers with pointed petals that resemble birds' beaks. Grow it in containers, baskets, or windowboxes in potting soil.

‡ 8in (20cm) ↔ indefinite

☀ Z10–12

BULB LARGE

Lilium Golden Splendor Group

YELLOW TRUMPET LILY This perennial has slim green leaves and tall stems. In summer, scented, trumpet-shaped golden flowers appear. Plant in soil-based potting mix with added grit; stake the stems.

‡ 6ft (2m)

☀ Z5–8

SHRUB SMALL

Mahonia aquifolium

OREGON GRAPEHOLLY This spreading evergreen shrub has glossy, spiny dark green leaves and clusters of yellow flowers in spring followed by black berries. Ideal for year-round color; plant it in a large container of soil-based potting mix.

‡ 3ft (1m)

☀ Z5–8 (N)

BULB MEDIUM

Narcissus 'Canaliculatus'

DAFFODIL This dwarf bulb produces linear green leaves and slim stems bearing clusters of small, fragrant spring flowers with reflexed white petals and yellow cups. Plant in frostproof containers during fall.

‡ 9in (23cm)

☀ (I) Z6–10
