

Picture detective

Take a look through the bird pages and see if you can spot who these body parts belong to.

Buzzard

Blackbird

Parakeets

Macaw

Orange-flanked bush robin

A world full of birds

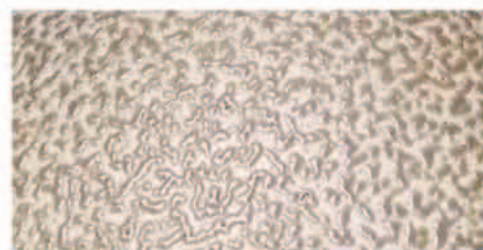

There are almost 10,000 different kinds of birds in the world. They range from the enormous, flightless ostrich, which is taller than a man, to the bee hummingbird, which is smaller than your thumb.

Flamingo

Turkey

Chicken
