

11 Mix burnt umber, French ultramarine, and alizarin crimson to make a deep brown. Use a fine brush to paint the details of the bridge in this color. Then use the clean, wet 1 in (25 mm) flat brush to lift out some of the color below the railings.

12 Add a mix of cadmium yellow and cadmium red to the orange boat to strengthen the color. Paint details in dark brown and then add a line of cerulean blue (a complementary color) to create a shadow at the back of the boat.

Boats on the canal ►

The eye is drawn into the finished painting by the vertical lines of the buildings and the reflections in the canal. The limited palette of neutral tones used in the water emphasizes the vibrant color of the boats, making the composition stronger.
