

10 Model the shape of the gate post with cerulean blue. Add cadmium red to the front post to add warmth and make it appear to come forward. Add fine, dark details to the gate with a mix of burnt sienna and cerulean blue, using the No. 9 brush.

▼ Field gate

Dry brushwork creates the rough texture of the gate, while the soft, loose washes of cool and warm color around it convey the hazy warmth of the afternoon sun and create a sense of depth.
