

7 Paint the shadows under the windows with raw sienna. Use viridian for the open shutter. Paint the outline of the street lamp in burnt sienna and use the same color to paint the arches on the building on the right.

8 Mix burnt sienna, French ultramarine, and Windsor violet to make a deep purple for the shutters and the dark areas of the building on the right-hand side of the picture. Apply this mix with the 1 in (25 mm) flat brush.

“Use the simplest brushstrokes to convey human figures.”

9 Use a light wash of Windsor violet to paint the shadows on the street. Paint the faces of the figures with dots of cadmium red and strengthen the color of their bodies with French ultramarine.
