in Brazil visited
blog sites in 2011

NEED TO KNOW

- **Disclosure** Statement of whether blog is sponsored, or if reviewed products are given to blogger or were independently bought
- **Splog** Spam blog containing fake articles designed to increase the search engine rankings of specific websites

Syndicate/share

Submit blog to syndication sites and share with social media networks, such as Facebook, Twitter, Instagram.

Track and measure

Monitor key blog statistics, such as the number of unique visitors and the number that sign up for RSS feed and email.

BLOGGING VITAL STATISTICS

Top five statistics to track

- **Number of visitors** Potential customers visiting blog and their route in—via links or direct entry
- **Bounce rate** Share of visitors who leave site within 10 seconds
- **Pages per visit** Number of pages viewed by visitor
- **Conversions** Proportion of visitors who subscribe to blog
- **Keywords** Common words visitors use to find blog site

Three blogging mistakes

- **Obsession with SEO** Although SEO is important, focus should be on publishing quality content
- **Omitting facts** Posts should offer factual information, not just opinion or repackaged content
- **Lack of legibility** Poorly designed blogs with unclear typography will discourage customers from reading content
